LEAD IN PAINTS

The FDA published the NPCA's proposed amendment to the FDA lead ban on December 5. A copy, as published in the Federal Register, is attached.

Interested parties have 60 days (until February 3, 1973) to submit comments. It is imperative that we now submit our comments in support of this amendment. The NPCA will soon issue some suggested guidelines for response. If I can be of any help, please let me know.

E. E. SWAIN, JR.
