Dear Duffey,

Please accept my thanks for the contributions that you made to the Hourly Safety Committee during the past year. Even though you missed the last several months due to illness, you and other members of the committee did play an important role in our overall 1983 safety performance in Texas City. Your identification of safety concerns, and even more importantly, your suggestions and recommendations for solving many of the concerns were important factors in our safety program. I also appreciate the positive attitude, sincerity, and cooperation that you displayed while representing your group.

Because of your knowledge and experience gained in serving on the Hourly Safety Committee, you are a very valuable resource to our plant safety program. You can use this knowledge and experience to continue to help us seek out unsafe acts and conditions and correct them before someone is seriously injured or equipment badly damaged. Your fellow employees will be most grateful for your continued support.

Sincerely,

Harry
