DOCUMENT DESCRIPTION: Letter to Dr. Vorwald from J.P. Woodard

July 28, 1950

NOTED

Mr. Arthur G. Arnold
The Brookes Foundation
Sarasac Lake, New York

Dear Dr. Arnold:

Mr. Fisher and Mr. Brown were very pleased to learn that the Inspection Report you are preparing for publication is nearing final form and is expected to be in the hands of the publisher within the next few weeks. The question as to date of publication is continually being raised by the underwriting companies and I am sure they, as well as we, are pleased that this report is soon to be published.

You showed me the finished report and said that certain pictures and a bit of condensation of sections were still needed but that otherwise it was ready to go. Inasmuch as I am passing out this information that publication can be expected soon, please let me know if the report will not be in the hands of the printers by the first of September, which would be about two months from the time you and I discussed this at the end of June.

A number of these companies feel that the publication of this information is very vital to them, since they have cases where the decisions would be materially affected by the results of this study. We should all regret very much any delay in the publication of the report.

Sincerely,

E. P. Woodard
