Subject: Invitation to Speak at US Chamber's Chemistry Solutions Working Group

Dear Lynn,

Congratulations on your new position! I hope this message finds you well.

I am writing to extend an invitation for you to speak at the US Chamber's Chemistry Solutions Working Group. This group is an informal, off-the-record gathering that meets virtually to discuss key issues and priorities related to chemical policy.

We would be honored if you could join us at your convenience for a brief, 30-minute session. This would be a wonderful opportunity for you to introduce yourself and share the EPA's priorities for 2025. Additionally, we are keen to understand how our group can be more vocal and effective in advocating for the entire supply chain as it pertains to chemical policy.

Your insights and expertise would be greatly valued by our members, and we believe this discussion could foster a productive dialogue between the EPA and industry stakeholders.

Please let us know your availability, and we will be happy to coordinate a time that works best for you.

Thank you for considering our invitation. We look forward to the possibility of your participation.

Best regards,

Preston Beard
