PPG Industries, Inc. One PPG Place Pittsburgh, Pennsylvania 15272 (412) 434-2604

R. Kenneth Lee
Manager, Product Safety
Environmental Affairs
Chemicals

December 4, 1984

Mr. R. R. Neugold
Plant Manager
Tenneco Polymers
Beverly Road
P.O. Box 116
Burlington, NJ 08016

Dear Mr. Neugold:

Please find attached the following for vinyl chloride:

MSDS #25 (1/84)
Product Brochure (A-994-115, 1/83E)
Product Bulletin (115A, 11/81)
Bulk Tag (L115A-1A-782B)
Label (LA115A-1A-1179A)(Should be on all tank cars)

Vinyl chloride is labeled as a suspect human carcinogen.

PPG urges you, and it is your duty, to pass the enclosed warnings and information along to your employees, customers, handlers or users of this product. The same principle applies to any product made by you from PPG products.

Even though PPG is furnishing this information to you, it is not necessarily all-encompassing; therefore, it is recommended that you should consult with knowledgeable people of your choice in order to determine whether your safety programs and warnings are adequate and/or in compliance with any applicable laws or regulations.

Yours very truly,

R. Kenneth Lee
