CALVERT CITY CITATIONS

We have received approximately 14-16 citations at Calvert City actually involving four different areas:

Standard is:

- 1) 1910.20 - Notification
- 2) 1910.1017 - Vinyl Chloride Standard
- 3) 1910.1047 - Ethylene Oxide Standard
- 4) 1910.1200 - Hazardous Communication

We won't know if they're serious until we receive the written citation from the Director. Will possibly receive this next month.

Regulating of vinyl chloride areas is the only real problem. Looking at having a meeting with Kentucky OSHA to discuss that point.
