Telephone 683-8831

February 4, 1965.

Mr. J.A. Kelley,
General Manager,
Zonolite Division,
W.R. Grace & Company,
135 South La Salle Street,
Chicago, Illinois 60603.

Dear Joe:

On December 8, 1964, I sent you copies of correspondence between our Calgary plant and the Alberta Department of Health with a covering letter.

When I was in Calgary last week, Red Williams told me that he believed Zonolite had been in touch with the Department direct. I have had no copies of correspondence to this effect and wonder if you have taken any action.

At the request of the Department we are sending two employees to Edmonton at a time to go through a chest clinic. The first two will be going February 6th. As soon as we get reports, I will send copies to you. In the meantime, would you please bring me up to date on what has transpired at your end and give me any counselling that may be helpful in our dealings with the Department based on your experience elsewhere.

Yours very truly,

N.F. Bushell,
Manager, Zonolite Products.
