Ms. Cindy Tchilinguirian  
Additives Toxicology Group  
NSF International (NSF)  
P.O. Box 130140  
Ann Arbor, MI 48113-0140

Dear Ms. Tchilinguirian:

I am returning the attached TDRS - Form B under Std. 60/61 on 820X13 for forwarding to the appropriate supplier. 820X13 is not a BFGoodrich product.

Sincerely,

THE BFGOODRICH COMPANY

Connie N. Dillon

| From: Carl Reid                                   | Date: June 2, 1992                           |
| Subject: ✓ TSCA TRAINING PROGRAM<br>NIAGARA PLANT |                                              |

TO: T. Fletcher - Scotford  
M. Dessureault - Shawinigan  
Mike Marshall - Cleveland

Al Shaidle asked me to summarize the Niagara Plant TSCA Training Programme, after his conversations with Mike Marshall, Bill McDonald and Denis Belzille:

- A  
B  
S
- 1) Department Managers will be trained in basic requirements, to become conversant with the programme being introduced in U.S.A. plants.
  - 2) We will include requirements for "allegations" and "substantial risk" in our routine WHMIS Safety training, to ensure compliance by all employees.

Since Ontario legislation does not formally cover "allegations" and "substantial risks" as in TSCA, plant employees must sign off when they receive this training.

Beth Landskroner

SUBJECT: GEON 83405 TRANS 002/COOLEY

I have reviewed the FDA status on the above referenced compound. The compound's ingredients are either Generally Recognized As Safe (GRAS), Prior Sanctioned (PS) or meets the specific requirements under Indirect Food Additives Regulations 21CFR.174 through 178.

If I can be of further assistance, please give me a call.
