Dear All,

Below you will find a first response from 3M to our questions and a proposal for an agenda. Please let me know by 16 April 2021, if there are any further questions or topics, you would like to put on the agenda.

Best regards,

for the German CA

Betreff: RE: PFAS: 3M's environmental stewardship commitment & Request for a meeting

Dear [REDACTED]

Thank you for the questions and dial-in information.

3M did provide data to Wood related to the PFAS use in Oil, Gas and Mining study. But we would be happy to answer any additional questions during our meeting, and discuss also your second question.

For the agenda I would like to propose the following topics for discussion:

- Brief introduction to 3M
- Responsible manufacturing & 3M PFAS stewardship
- PFAS uses
- Fluoropolymers
- 3M Novec fluids as alternatives to F-Gases
- Upcoming group PFAS restriction in Europe

Additionally, we would also appreciate an opportunity to briefly touch upon the case of listing 3M Novec 7300 (CAS 132182-92-4) in the Annex to the PFHxA Restriction.

Please let me know if you agree, or if you would like to propose any additional points for discussion. I will inform my colleagues about your questions, so we can elaborate on those during the presentation already.

Thank you very much and looking forward to our discussion!

Best regards, [REDACTED]

Dear [REDACTED]

As already mentioned in the previous mail, we have a few questions, which we would like to send you ahead of the meeting:

- Has 3M provided relevant market data for PFAS used in the oil, gas and mining industry in the EU? Including products used for oil and gas well stimulation?

Currently, we have identified only very limited use of PFAS within mining and would appreciate a confirmation on this finding or additional information on such use.

- Regarding fluorinated polymers/fluoropolymers: Can you provide further information on impurities in products and release from products during the use-phase and end-of-life-phase?

Best regards,

for the German CA

Dear [REDACTED]

After checking with the other member states the 26th of April (there was a typo in the previous mails) from 13.00-14.30 o'clock works best for us. Colleagues from Denmark and Norway will definitely take part in the meeting. Both Sweden and the Netherlands will decide at a later stage, if they will join the meeting. Additionally, members from ECHA might join as well. As you suggested, I extended the meeting. I will forward this mail to the colleagues from the restriction group and get back to you on specific topics and questions.

Below you will find the dial-in data for the meeting:

Dear [REDACTED]

Thank you very much for coming back to me, and for your interest in meeting us. On your two proposed dates, we could do either Monday 27 April at 13:00-14:00 or Tuesday 28 April at 14:00-15:00.

Would you like to send us the meeting invitation, or should I do it? (if so, please let me know if there will be any further colleagues of yours participating)

Thank you & Kind regards, [REDACTED]

Dear [REDACTED]

thank you for your Email and the offer to discuss environmental stewardship commitments in more detail, as well as to inform us about your upcycling of fluoropolymers activity in Germany.

We would like to follow up on this offer but would only be able to organise such a meeting after Easter. Maybe you could indicate your availability for the following dates:

Monday 27 April
Tuesday 28 April

In case of further questions, please do not hesitate to contact me.

Best regards,

for the German CA

Dear [REDACTED]

I hope this email finds you well.

I would like to follow up on my email below and the request for a meeting. Would you be available for a 1-hour (virtual) meeting during the week of 22nd March or the week after (starting with 29th March)?

Thank you very much.

Best regards, [REDACTED]

Subject: 3M's environmental stewardship commitment & Request for a meeting

Dear [REDACTED]

It was nice meeting you yesterday as part of the AmCham EU's meeting with BAUA.

I wanted to take this opportunity to share with you also 3M's recent environmental stewardship commitment:

<https://news.3m.com/English/3m-stories/3m-details/2021/3M-commits-to-achieving-carbon-neutrality-reducing-water-use-and-improving-water-quality/>.

Those commitments do apply also to our PFAS manufacturing sites we have today in Europe: Dyneon site in Gendorf/Germany and Zwijndrecht plant in Belgium.

I would appreciate an opportunity for a separate meeting with you to discuss our commitments in more detail, as well as to inform you about our upcycling of fluoropolymers activity in Germany and to discuss in some more detail our Novec products as part of the upcoming PFAS restriction. Would you agree to propose us a few timeslots when you could meet us?

Thank you & I look forward to our discussion.

Best regards, [REDACTED]
