Russ,

This proposal for \$45K includes the 10K for Munich; it is not in addition to the Munich 10K. Am I understanding this request correctly?

Don

Subject: Shanghai Health Study - Exposure Assessment Proposal 8 June 2009

BHRC,

Tom Armstrong has send the attached proposal to write two manuscripts on exposure assessment for the Shanghai Health Study and support ongoing analysis by Applied Health Science and the University of Colorado/Cinpathogen. There would also be poster presentations at two professional meetings including the 2009 Benzene Symposium in Munich. I have talked to Otto Wong and he would like to have Tom available for questions and to review the draft manuscripts from the CC study.

This request is for \$45k. All work would be done by the end of September, 2009 (depending on comments from journals). The BHRC had already approved up to \$10k for travel to Munich. This new request is still within the available funding for the SHS.

Because of the June 30, deadline for submission of abstracts for the Benzene Symposium in Munich, please let me know if you approve or disapprove of this request, or would like to discuss the proposal on a conference call this week. (The next scheduled BHRC call is June 18th but that seems too late.)

Call me if there are questions.
