Watering Tips

In watering, the Ca should have a thorough tting followed by a dry period which will enc active root growth. inch pot, for instance take a cup of water once in every five to a which is sufficient in weather.

Larger pots that hav osmunda will naturall less frequent wateri cause they hold it. Overwatered roots, wh visible on top of the os will turn brown or Underwatered roots w a shriveled, parched wl healthy root will plump and greenish

These conditions are to the needs of the fre of waterings.
