SUBJECT Transformer Askarel
New Inspection and Maintenance Guide

REFERENCE

TO :B1NB
W. D. LUBIC

As your secretary indicated you will not be in until next week we thought it best to send you this memo to notify of our needs to completely revise the subject booklet.

The entire booklet has been rewritten to a major degree resulting in major changes as well as the inclusion of subjects not covered in the past.

Accordingly the new transcript is at hand in final form approved by medical, legal, and our environmental people.

At your early convenience please visit my office so that we can go over this manuscript and proceed with this project.
