Dear Bob:

I understand that you wrote a detailed and cogent critique of the second draft of the Lead Criteria document prepared by the Air Pollution Control Administration (now APCO). Unfortunately for me I was out of the country at the time of the meeting of the Lead Liaison meeting at which Herb Stokinger referred to your criticisms and I should very much like to read them. Would it be possible for you to make them available to me?

With best regards.

Sincerely,

G. J. Stopps, M.B., B.S.
