Subject: QA/QC

A quick note to tell you that Kris Hover called me yesterday from the airport on her way to Munich Germany. She is interested in supporting the SHS and while very busy this summer, can go to Shanghai. In fact she currently supports a Health Effects Institute (HEI) study at Fudan University, School of Public Health (see below) and has visited and audited data at Fudan already!

She will be back in the USA next week. Should I arrange a conference call between Kris and Jerry Rice? Or the Tech Committee? A select few?
