Mr. John R. Englehorn
Vice President
St. Joseph Lead Company
250 Park Avenue
New York, New York 10017

Dear John:

Your letter of October 27 is greatly appreciated.

You will be most welcome at our meetings of the Board of Trustees, and I shall look forward to our continued association in the work of the Foundation. In this regard, I should like your advice whether or not to attempt to secure a paper from Lead Industries Association on "Environmental Health Research in the Lead Industries" at a future Annual Meeting, along lines of those from the coal and oil industries this year. We may be able to obtain papers from chemical and fibrous dust industries next year. Would one from Lead Industries Association be timely in 1967? If so, please advise and I will hold a place on our Management Conference program for you, as President, or whomsoever you may wish to designate.

I thought you would like to have a print of the attached photo, which will appear in our Transactions.

With best regards.

Sincerely,

Robert T. P. deTreville, M.D.
Managing Director
