IN RE: ABRAMS November 1992

# INDEX

Accident(s)
  management of industrial injuries 804
  U.S. frequency rates, a British view 803
Aerosol(s)
  sampling with side port probe 792
  settling velocity and density of monodisperse 779
Air pollution
  control, electric automobile 797
  meteorology
    area-dosage relationships downwind of a point source 799
  trends and levels in New York City 800
Air sampling
  for halogenated hydrocarbons 786
Alcohol
  effects on performance in continuous attention tasks 734
Alcoholism
  alcoholic cardiomyopathy 735
  in industry and safety programs 801
Allergy(ies)
  asthma from inhalation of moth particles 745
Ammonium nitrate
  primacord wrap test 796
Analysis
  instrument for airborne halogenated hydrocarbons 786
Arsenic, in American cigarettes 767
Asbestos
  exposure and mesothelioma 777
  in lungs of Milan inhabitants 778
Asthma
  from inhalation of moth particles 745
Automation
  of electrocardiographic diagnostic criteria 736
Aviation
  measurement of pilot fatigue 737

Bacteria, in chilled delicatessen foods 754
Bacteriology
  Staphylococcus aureus on the hair 756
Books
  Hearts—Their Long Follow-Up 728
  Physiology in Space Environment Vol. II. Respiration 727
Buckthorn polyneuropathy 751
Burns
  treatment
    with intensive antibiotic therapy 758
Byssinosis
  in hemp workers 775

Cadmium
  response of mesenchymal tissue 768
Cancer
  liver and cirrhosis 747
  regional patterns of mortality in the United States 746
Carbon tetrachloride
  poisoning
    mitoses in bile duct epithelium 772
Caterpillar dermatitis 75
Chlorine
  effects upon respiratory function 76
Cincinnati
  cirrhosis and cancer of the liver 74
Cirrhosis, and cancer of the liver 74
Coal, determining dust concentrations 78
Cold (low temperature)
  stress and muscular exercise 78

Dermatitis, dermatosis(es)
  characterization of ragweed pollen extracts 76
  from caterpillars 75
Dialyses, hard water syndrome 75
Diethylene glycol monoethyl ether
  short-term feeding study 77
Dust
  counting, determination
    light-field microscope versus microprojector 78
  sampling, samplers
    from subisokinetic filter samples 78
Dynamite
  poisoning from organic nitrates during manufacture 76

Electric automobile
  for lessening air pollution 79
Electrocardiographic diagnostic criteria
  automation of 73
Exhaust gases, automotive engines
  ice nuclei from 79
Explosive materials
  primacord wrap test 79
Eye, burns caused by tear gas 74

Fatigue, measurement of pilot 73
Filter(s)
  estimation of airstream concentrations of particulates 781
  evaluation for high-volume sampling 78
Fire and hyperbaric oxygen 79
Food(s)
  bacteria in chilled delicatessen 754
  microflora of hand washed milk bottles 75
Foot-and-mouth infection in human beings 74

Geriatrics, the aging worker 73
Glue sniffing and heroin abuse 762

Hard water syndrome 757
Hearing, in the Mabaans 784
Hearing loss
  inner ear pathology of sudden deafness 739
Heart, electrical activity of human 752
Hearts, their long follow-up (bk. rev.) 728
Hemp workers
  byssinosis 775
  dust disease 774
Heroin abuse and glue sniffing 762
Hydrogen
  distribution to process laboratories 794
Hydrogen fluoride
  measuring short-term dosages 787
