Subject: RE: BENZENE AND ATP CHANGES

Yes Patsy, there are a lot of classification changes for Benzene,

I was planning to recreate benzene MSDS for Europe next week.
This also affects all products containing benzene greater than 0.1. %.

But I will postpone until you give your o.k.

Klaus,

I have to make a significant change in the benzene MSDS - based on a finding from the Shanghai Health Study. Are there any changes to benzene based on the ATP? If so, I would like to coordinate.

Regards,
Patsy
