ACOUSTICAL PLASTER FOR
MACHINE APPLICATION

8/8

C. E. Abbey - jam

CC: Mr. O. F. Grisve - Ardmore
Mr. C. G. Shuttlesworth - Paoli Lab.

THIS COPY FOR

Wif-6
We are not prepared yet to talk about the exact construction of the bag but I'd like to point out that we are planning on a much larger tonnage of this type acoustical plaster than we ever sold with Lalite. As soon as we have a few more trials to be sure of where we stand, we plan on releasing it widely and hope to get a great deal of material sold from all of our plants.
