Dr. Robert A. Kehoe,
University of Cincinnati,
Cincinnati 19, Ohio.

Dear Dr. Kehoe:

I have not replied to your letter of March 31 — *See later*
because I did not have anything tangible on which to *replying*
write you an appropriate reply. However, in the mean-
time we have a program of study developed with our
people and we should like to have an opportunity of
developing it with you. In this connection, we are now
considering an overall program embracing the entire
lead industry which will involve the Lead Industries
Association. Therefore, when convenient to you,
Mr. R. Ziegfeld and I should like to go to Cincinnati
and meet with you for a discussion.

Regarding Dr. Lauer and the Cincinnati Magnus
Division, the matter simply resulted, so far as I can
determine, in incompatibility of personalities.. I
should prefer to postpone a discussion of this matter
until we meet in Cincinnati.

Yours very truly,

Chas. Stewart
