 Refining Operations (UNIT)	TO	Distribution	DATE	June 30, 1987
	FROM	J. E. Warn 8-220-3562	SUBJECT	Asbestos Handling Procedure.

T. W. Sands

Volume II of the Corporate Safety and Health Manual contains Procedure No. 9.6.1 regarding the Corporation's Asbestos Handling Program.

This procedure requires a designated facility representative to inform Kerr-McGee Medical Services personnel during the planning stages of all asbestos abatement activities.

Please review this procedure with those reporting to you and remind them of this important requirement in our corporate procedure to insure the proper handling of asbestos material.
