

TODAY...

Victor's automation techniques include this three story high conveyor system that cleans, applies and bakes on the aluminum coating to steel gaskets all in one continuous operation.

NUMBER OF PRODUCTS

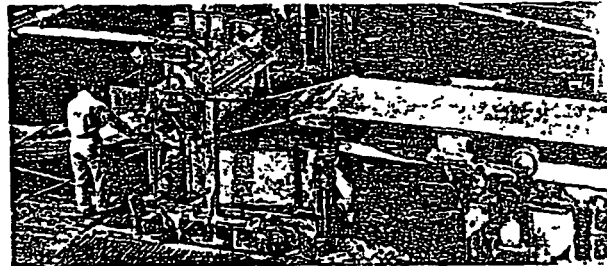

The number and variety of Victor products total more than 100,000 different items—including gaskets, oil seals and packings.

INDUSTRIES SERVED

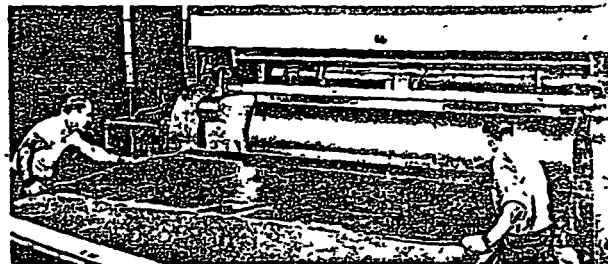

Typical industries served by Victor are: automotive, air, water and rail transportation; agriculture; construction, power and power transmission equipment; the oil industry; machinery and machine tools; electrical, refrigeration and air-conditioning industries; household appliances; and suppliers of war equipment.

DISTRIBUTION

Victor products are distributed in the United States and Canada through thousands of automotive and industrial parts jobbers and distributors. In addition, Victor products are sold in foreign countries from north to south and east to west. The sun never sets on the Victor trade-mark or its products.

Asbestos millboard—Victor knows and controls the properties of this packing material. Victor has operated its own sheeting mill since 1935.

Asbestos fiber and synthetic rubber is mixed and bonded under heat and pressure to form a tough homogeneous sheet of VICTOPAC packing material.

SPACE FOR SEALING PRODUCTS EXCLUSIVELY.

Bulk Stacking and Labeling Division—Plant No. 4
