SUBJ: Mortality Surveillance: Presentation Overheads

Enclosed are a few presentation overheads, should you wish to share the findings of UCCs mortality surveillance system findings with your staff or CAP groups or if unanticipated questions arise in the future. Of course, I am available to help if needed.

Per your request, I have sent by e-mail a few days ago, a one-page summary for each location suitable for a bulletin board notice. I would ask that you hold posting until all locations have finalized their notices. I will contact you soon in this regard. We are attempting to release this information at approximately the same time, as requested by some locations.
