Baltimore, Md.

Gentlemen:

Please find enclosed a revised bibliography for the article, "Measurement of industrial lead exposure by analyses of blood and excreta of workmen," by Jacob Cholak and Karl Barbach, which is to be printed in the Journal of Industrial Hygiene and Toxicology. The titles of the articles were not included in the original manuscript and Miss Perry has asked us to supply them.

I am sending this revised bibliography directly to you in the hope that this may save you the trouble of correcting the proof, but if it does not reach you in time, we shall make the necessary corrections on the proof when we receive it.

Sincerely yours,

Literature secretary
