U. S. A.

GLD 041536

OUR MODEL VARNISH PLANT.

IN issuing this our new CATALOGUE and PRICE LIST, we have endeavored to explain the qualities and use of each of our different kinds of manufactures in such manner that our customers may have no difficulty in ordering the right varnish for their requirements.

In the manufacture of our Varnishes, we use only the VERY BEST materials and ingredients to be obtained, and by **direct importation** of many of them, we are confident of their **purity** and **excellence.** This, in connection with long experience and skill in manufacturing, is a sufficient guarantee of the **superior quality** of our productions.

The quality of our goods is attested by the fact that the demand for them has increased to such an extent as to require another large increase in our manufacturing facilities.

EXPORT TRADE.—The demand for our goods in foreign countries has so increased that we have established a regular **Foreign Department.** Our knowledge of the details and thorough experience in this regard enables us to handle such matters with precision and despatch.

Appreciating the generous patronage we have already received, we shall endeavor to merit a continuance of it by our **best personal care and attention** to the fulfillment of all orders and business we may be favored with.

NOTICE

IN the following pages we will endeavor to give a brief description of each of the Varnishes herein listed, but before doing so wish to call your attention to the fact that we have made the Varnish business a study for the past thirty years, having utilized the services and experience of the best Foreign as well as American Varnish makers and experts in the manufacture of all kinds of Varnishes, Japans, &c.

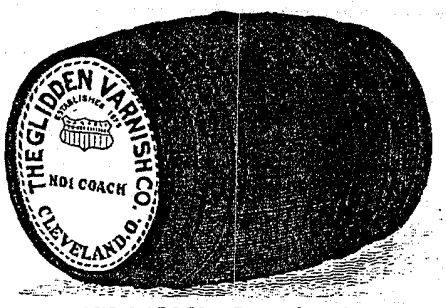

Our Railway and Carriage Varnish as listed herein are all made on the English System, improved by American methods, whereby we produce superior working qualities, at the same time retaining the extreme durability of English Varnishes, and for uniformity, durability, brilliancy and easy working qualities, they are unsurpassed.

THE GLIDDEN
VARNISH
COMPANY.

CLEVELAND

1 GAL. CAN, (Reproduced.)

OUR BARREL. (Reproduced.)

GLD 041542

PALE WEARING BODY VARNISH, **$6.00**

A very pale Varnish of great brilliancy and durability. Unsurpassed in its free working qualities enabling the finisher to cover a large surface before laying off. Dries dust free in 10 to 12 hours, and can be run out in 3 to 4 days.

MEDIUM DRYING BODY VARNISH, **6.00**

Fully equal to our Finishing Body in paleness and freeness in working. Is heavier bodied, dries dust free in 8 to 10 hours, and can be run out in from 2 to 3 days.

ONE COAT FINISHING VARNISH, **4.50**

Intended for finishing wheels and underparts of carriages, also bodies where a heavy varnish is required. Combines easy working qualities with safety, brilliancy and durability.

ELASTIC GEAR VARNISH, **5.00**

This Varnish is intended for last coats on carriage parts. Has the same working qualities as our Wearing Body, and is equal in brilliancy, but dries quicker, being free from dust in 8 to 10 hours, and can be run out in 3 days.

HEAVY GEAR VARNISH, **4.00**

This is also a very brilliant and elastic Varnish for wheels and underparts. It is heavier and quicker drying than our Elastic Gear.

ONE COAT GEAR, **3.50**

This is for quick and a cheaper class of gear finishing. It dries over night, and has a good lustre.

DURABLE RUBBING BODY VARNISH, **$4.50**

Is quite pale, works freely and rubs easily. Will rub in 4 days without sweating. A durable Rubbing Varnish is the foundation of all good work, and we guarantee this in every respect.

HARD DRYING RUBBING VARNISH, **4.00**

This is similar to our Durable Rubbing Body but dries to rub in two to three days.

QUICK RUBBING VARNISH, **4.00**

This is a very durable Varnish for quick work, and dries to rub in two days.

BLACK RUBBING VARNISH, **4.00**

This Varnish is prepared with the best imported Ivory Drop Black in our Rubbing Varnish, and is of extra quality. It dries to rub in three days, has good covering qualities, and is the best in use.

QUICK BLACK RUBBING VARNISH, **4.00**

Prepared with the same Ivory Drop Black as our Black Rubbing, but dries more quickly.

MISCELLANEOUS

BLACK COLOR VARNISH, **4.00**

A full drying and brilliant Black Finishing Varnish, exceedingly durable and not sensitive to mud stains. Hardens in 48 hours.

NO. 1 WAGON BODY VARNISH, **1.60**

A light colored full drying and brilliant Varnish for finishing wagon bodies where durability is required. Dries in 1 to 2 days.

No. 1 WAGON GEAR VARNISH, **1.60**

A heavy, full drying Varnish for finishing gears and parts of wagons. Very brilliant and durable. Dries in 1 to 2 days.

No. 1 MIXING VARNISH, **1.60**

A good mixing Varnish for paints and colors especially adapted for wagons and agricultural implements.

JAPAN GOLD SIZE, **3.00**

Light in color and imparts a brilliant and durable effect when used as a sizing for *Gold Leaf.*

GLD 041543

45% off

BLACK ENAMEL TOP DRESSING, $3.00

For dressing leather tops and aprons. Most durable and elastic dressing made.

JAPAN [illegible]

PALE COACH JAPAN, 3.00

A very light and powerful dryer for mixing in all kinds of paint or varnish.

LIGHT COACH JAPAN, 2.00

Similar to above but darker in color.

BROWN COACH JAPAN, 1.50

A very strong drying Japan for drying paint, oil or varnish.

RAILWAY VARNISHES

RAILWAY COACH FINISHING VARNISH, $6.00

A very pale elastic and full drying varnish. Resists atmospherical changes. Dries in 3 to 4 days.

LOCOMOTIVE FINISHING VARNISH, 6.00

Similar to above but made especially for iron, steel and heated parts on engines.

INSIDE COACH FINISHING VARNISH, 3.50

A light, elastic Varnish for finishing the inside of cars, etc. Gives a brilliant finish, and does not crack from the general strain of the car.

OUTSIDE COACH RUBBING VARNISH, 4.50

This Varnish is very pale in color, works easily under the brush and hardens so as to rub in 2 to 3 days without sweating out.

INSIDE COACH RUBBING VARNISH, 3.00

Light in color, dries hard in 2 to 3 days. Rubs easily and takes a good polish.

45% off

ZANZIBAR POLISHING VARNISH, $3.50

For obtaining the best Piano Polish Finish on interiors of finest coaches. Rubs in 3 to 4 days.

LOCOMOTIVE BLACK ENAMEL, 3.00

SURFACENE.

REGISTERED.

1 Gal.

Surfacene is, as its name signifies, a surfacing or first coat Varnish to be used as a foundation coat for all kinds of finishing. Is superior to all Liquid Wood Fillers. It contains a transparent mineral pigment which, in combination with the hard gum varnish used in its manufacture, seals up the pores of the wood and prevents the absorption and suction of the finishing coats of varnish. Makes a splendid wall size for frescoing, etc. Dries in 12 hours.

1 Gal. Pails		at $1.40	each.

"	24-⅛	" "	"

We also put Surfacene up in barrels, ½ barrels and 5 gal. kits, all with special agitator attachments for Factory trade only.

"No charge for cans, boxes or barrels."

GLD 041556

PURITAN LIQUID WOOD FILLER.

REGISTERED.

1 Gal.

"Puritan" Liquid Wood Filler is beyond doubt the best on the market. We have made a study of this class of goods for a number of years and, being experienced varnish makers, are in position to give the trade a better article than filler makers who are dependent upon the varnish maker for his materials. It is very light in color, and has easy working and good drying qualities. Holding up and Filling properties are unsurpassed. Try it as a wall size.

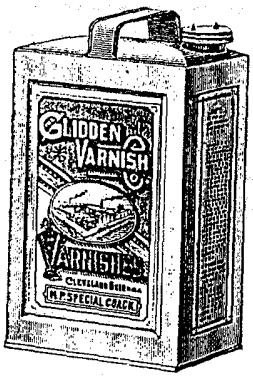

1 Gal. Pails	at	$1.25 each.
