

1 it has turned out, in fact, to be the case.

2 Q As a result of the work that you have done,  
3 have you ever published the results of any of your  
4 studies?

5 A Sure. That is part of our measure of  
6 whether or not you are doing what you should be doing  
7 as a scientist.

8 I publish my findings routinely and I  
9 published about over 115 papers now and about half of  
10 them related to asbestos disease per se, and most of  
11 them, almost all of them related to lung scarring.

12 Q Okay. And approximately how long have you  
13 been publishing articles on asbestos disease and your  
14 experiments?

15 A The first paper I published on this area  
16 came out in about 1980.

17 Q Okay. Have you published or written any  
18 chapters in any books, Doctor?

19 A Almost 40. I think it is 37 chapters now.  
20 Most of them dealing with asbestos disease.

21 Q And have you written in any books or
