**To Members of the Lead Industries Association:**

SUBJECT: "LEAD PRODUCTION AND USES" CHART

We have prepared a chart to show graphically the principal mining districts where lead is produced in the United States, smelted or refined, and how it is used by industry. This chart will be an illustration in a book on lead expected to appear sometime in 1946 -- a revision of our book, USEFUL INFORMATION ABOUT LEAD published in 1931.

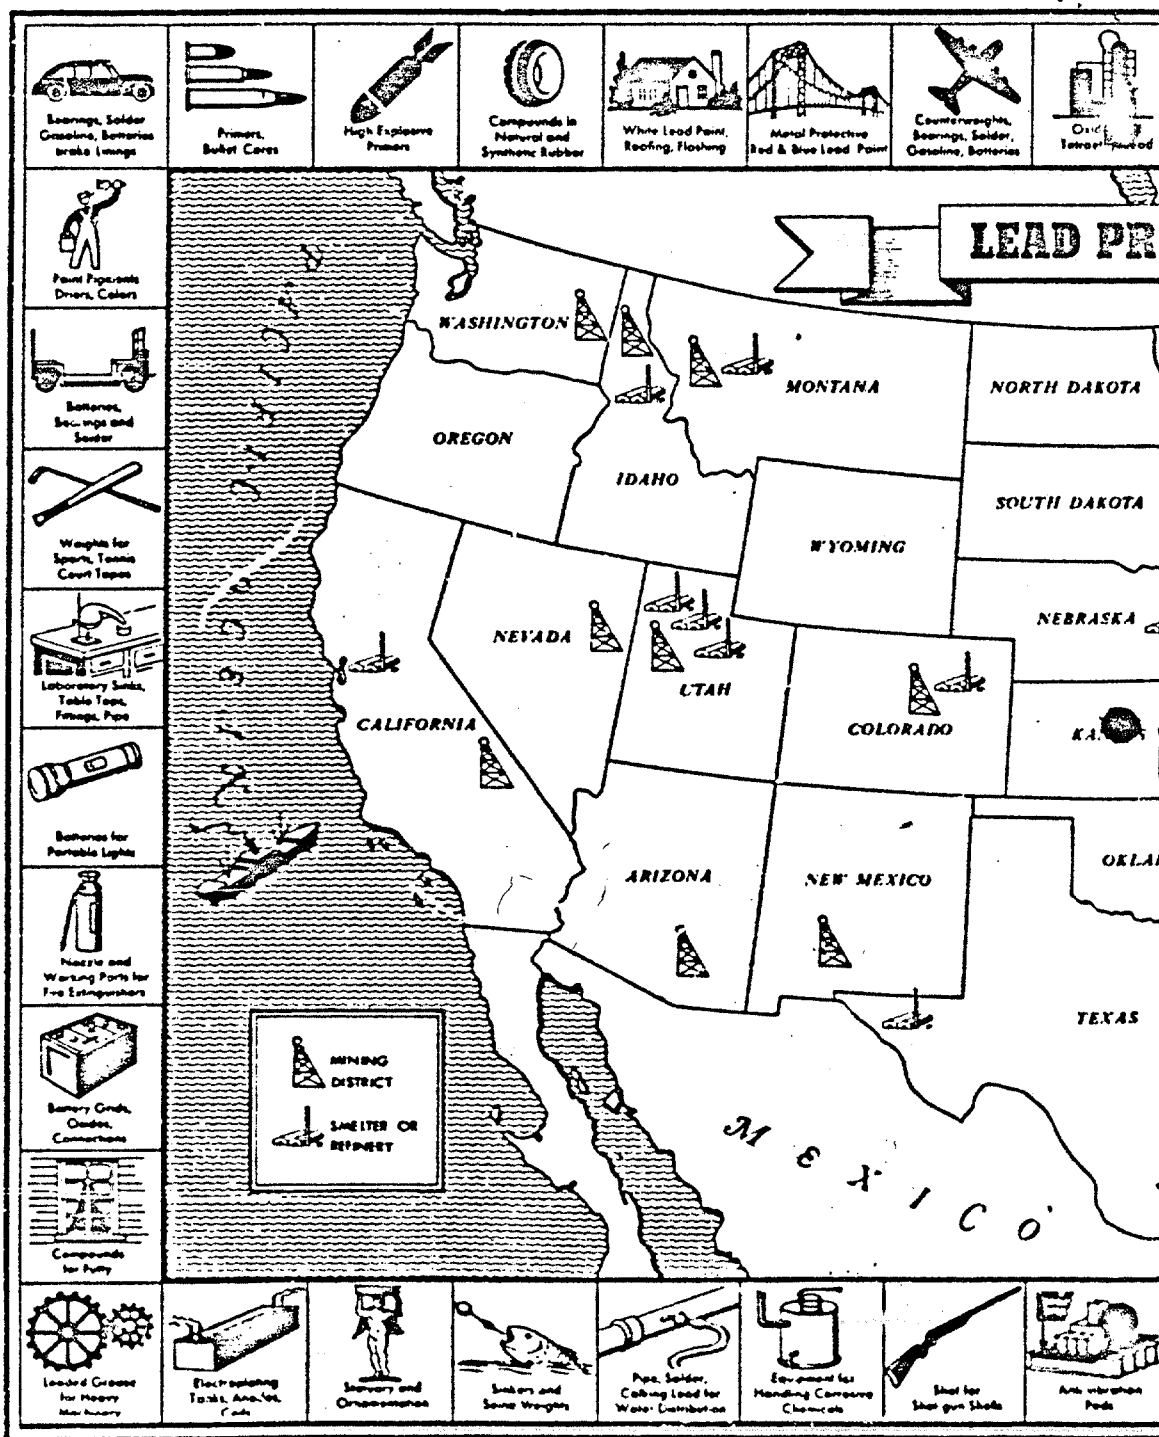

If you wish an unfolded copy for mounting we will be pleased to supply it, as well as copies in quantity at cost to us. \$1.35 per hundred.

Very truly yours,

**Secretary.**
