

## Curtis Refrigerating Machine Division

of Curtis Manufacturing Company

1959 Kienlen Ave.,  
St. Louis 20, Mo., U. S. A.

ESTABLISHED 1854

NEW YORK OFFICE  
30 Vesey St.

CHICAGO OFFICE  
9 S. CLINTON ST.

Full Line of Units from 1/4 to 40-hp. Unit Coolers, Air Handling Units, Evaporative Condensers, and Cooling Towers

**PRODUCTS:** Complete Refrigerating Equipment for Dairies, Creameries, Ice Cream Cabinets, Ice Cream Making Plants, Cold Storage Locker Systems, Walk-in Coolers, Drinking Water Systems, Commercial and Low Temperature Cooling, Processing and Air Conditioning Installation, Packed and Remote Types.

Combination air and water cooled Condensing Units.  
1/2 Through 2 hp.

1 1/4 hp Air Cooled Condensing Unit. Other sizes from 1/4 to 5 hp.

15 hp Cleanable Shell and Tube Condensing Unit. Other Sizes from 7 1/2 to 40 hp.

Year-round Cooling and Heating Unit—2 and 3 tons

### Commercial Refrigeration

Air cooled condensing units from 1/4 to 3 hp, inclusive, combination air and water cooled units from 1/2 to 3 hp, inclusive, and water cooled units from 1/2 to 40 hp, inclusive. All models charged with Freon 12 refrigerant. Mechanical advantages include Timken Bearings, Positive Pressure lubrication. Special models are available for ice cream, frozen food cabinets and for the dairy industry.

2, 3, 5, 7 1/2 and 10 ton Packaged Type Air Conditioner.

10-15 ton Remote or Central Type Air Conditioner.

### Air Conditioning

For today's Air Conditioning requirements Curtis offers complete packaged, refrigerated air conditioning units, requiring only water and electrical connections to install. Cools, dehumidifies, circulates and filters the air. Eliminates costly installation expense. Adaptable for heating.

### AIR CONDITIONING

Frick "ECLIPSE" Compressors, 2, 3, 4, 6 or 8 cylinders. Bulletin 100.

Unit Air Conditioners, 3, 5 & 7 1/2 Hp.

Complete Frick Systems, including several that are patented; also refrigeration for use with equipment supplied by others. Thousands of installations attest the value of Frick air conditioning. See Bulletin 503 on air conditioning with ammonia refrigeration, 504 on typical installations, 505 on engineering details, and 522 on unit air conditioners.

### FREON REFRIGERATION

Combined Unit with "ECLIPSE" Compressors. Bulletin 100

Frick low pressure units, "ECLIPSE" multi-cylinder compressors, and larger enclosed Freon machines provide a complete and efficient line. Unit air conditioners; central systems; plain and finned coils; coolers, condensers, controls; also valves and fittings to suit. Patented Flexo-Seals, pressure lubrication, capacity controls, and built-in dependability make Frick machines your logical choice.

### AMMONIA REFRIGERATION

Enclosed Ammonia Compressors, 3 in. by 3 in. to 17 3/4 in. by 12 in. Bulletins 112, 516 & 651.

Combined units and vertical enclosed compressors, with 2 or 4 cylinders, in sizes from 2 1/2 to 1000 tons. Also "ECLIPSE" compressors for ammonia and high pressure service, with 3, 6 or 9 cylinders. Ammonia equipment is used with material savings in certain air conditioning work. Ask for Bulletin 503.

Low Pressure Refrigerating Units, Open Drive or Accessible-Hermetic Types. Bulletins 97 & 402.

"ECLIPSE" Compressors with 9 cylinders of size 5 1/4 in. x 5 3/4 in., in service at Fairchild Aircraft plant, Hagerstown, Md.
