Mr. S. Holmes, Secretary
Asbestosis Research Council
c/o Turner Brothers Asbestos Company, Ltd.
P. O. Box No. 40
Rochdale, England

Dear Mr. Holmes:

On the basis of recent discussions between Mr. R. M. Bateman and Mr. C. D. Burnett, and under the terms of Associate Membership outlined in your letter of May 4 to Mr. K. V. Lindell, we are herewith formally applying for an Associate Membership in the Asbestosis Research Council for the Johns-Manville Corporation.

Dr. K. W. Smith, Medical Director, will be our principal correspondent and liaison.

For the benefit of those of us who are not well acquainted with the work and structure of the Asbestosis Research Council, I would appreciate your forwarding a brochure or other information that may be available concerning it.

Is there also an index of scientific or technical papers already published, and if so, would these be available to us when our application for Associate Membership is acted upon?

The invoice for Associate Membership subscription may be sent to my attention.

Yours sincerely,

H. M. Jackson
Director of Industrial Relations
and Management Development
