Take a peek
at something new
in paint!

Our "Dutch Boy" Color Gallery offers you something new in paint! Something *more* than a fascinating choice of colors; *more* than a choice of three rich finishes — *flat, satin, high lustre*. *More*, because your choice includes an easy-to-use *alkyd resin* type enamel — the latest advance in paint. It rolls or brushes on utterly *smooth*. It dries *tough*. Its beauty snaps back with every washing. It shrugs off wear. So come in, choose your favorite Color Gallery hues *today!*
