1929

INDEX

VOLUME I.

A

A B C—General Round Table Session, 33-51.
"Industrial Relations in Accident Control" (Bergquist), 39-42.
"Safety Factors in Modern Production" (O'Connor), 33-37.
"Statistical Talk for Junior Safety Men" (Blank), 44-49.
"Voluntary Use of Safety Codes in Industry" (DeBlois), 37-39.
Absenteeism: Discussion on getting the injured back to work, 466-475.
In "Relationship of the Personnel Manager and the Nursing Service" (Towsen), 257.
Absorption of poisons: "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 557-568.
Accidents—screw conveyor, "Eliminating the Screw Conveyor Accident" (Humphryes), 481-485.
Accident causes: In "Letting the Workmen Educate the Safety Man" (Williams), 403-404.
Accident control: "Industrial Relations in Accident Control" (Bergquist), 39-42.
Accident cost: "Hidden Cost of Injuries from the Executive's View Point" (Davis), 537-541.
Accident Prevention Equipment Manufacturers Section: Chairmen of Committees, 276.
"First Annual Report" (Davis), 266-270.
Minutes, 265-284.
Section Officers, 265.
Report of the Nominating Committee, 270.
Resolution on Committees, 267.
Retiring Officers, 265.
Accident prevention equipment manufacturers: "Confidence Necessary in Business Ethics" (Webster), 271-275.
List of Exhibitors, 280-284.
"National Safety Codes" (Agnew), 276-278.
Accident-prone man: Discussion in Electric Railway Section, 802-806.
"Why Do Some Trainmen Have Accidents and Others None?" (Slocombe), 199-802.
"Safety and the Individual" (Bingham), 89-93.
Accident reports: Discussion, 411.
In "What Activities Are Most Useful in Reducing Accidents in a Group of Plants?" (Rutland), 65.
Accident statistics: "Report of Engineering and Statistics Committee Electric Railway Section" (Malz), 704-732.
In "Safety from the State Standpoint" (Meade), 681-683.
In "Study of the Reported Fatal Accidents in the Cement Industry During 1928" (Weitknecht), 517-528.
In "What Activities Are Most Useful in Reducing Accidents in a Group of Plants" (Rutland), 65.
See also Statistics.
Acid hazard in chemical industry: See Chemical Industry.
"Address of the President" (Pettibone), 31-32.
Aeronautics: "Aircraft Factory Hazards" (Roloson), 329-333.
Discussion on examination of pilots, 303-311.
Discussion on licensing airports, 303-311, 342-346.
"Fire Prevention in Airports" (Davidson), 320-327.
"Flight Training as a Means of Insuring Safety" (Howard), 299-302.
"Maintenance of an Air Transport Service and Safety Standards" (Seymour), 336-342.
"Safe Flying Through the Use of Instruments" (Brown), 311-317.
"Safety Factors in Aerodynamics of Design" (Walter), 290-297.
Aeronautical Section: Membership Service and Activities of the National Safety Council" (Baker), 286-288.
Minutes, 285-347.
New Section Officers, 285.
Retiring Officers, 285.
Agnew, Dr. P. G.: "National Safety Codes," 276-278.
Ainsworth, C.: "Safe Practices in Manufacturing Nitro and Amido Compounds," 621-624.
Airports: See Aeronautics.
Ammonia: As refrigerant. Discussion, 585.
In "Protective Equipment for Men in Chemical Industry" (Armstrong), 592.
Annealing chains: Discussion (ASSE), 376-3
In "Progress Report of the A. S. S. Section on Annealing of Chains" (Thalner), 361-372.
Annual Banquet, 29-31.
Annual Meeting of Members: "Address Welcome to the Congress" (Rice), 10-
Minutes, 9-27.
"Moral Significance of Safety" (Soare 22-27.
"President's Annual Address" (Reninger 12-18.
"Report of the Nominating Committee, 18-19.
Antiseptics: "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 563-568.
Armstrong, A. L.: "Protective Equipment for Men in the Chemical Industry," 592.
Ashe, S. W.: "Report of the Nominating Committee," 824.
Asphyxiation: Discussion, 601-602.
See also Gases, Gassing, Refrigeration Section.
A. S. S. E.—Engineering Section: "Discussion of Progress Report" (Daniels), 373-376.
Minutes, 349-396.
New Section Officers, 349-350.
"Progress Report of Committee on Annealing on Chains" (Thalner), 361-372.
"Progress Report on Noise and Its Relations to Accidents" (Snook), 382-386.
"Report of Committee on Accident Prevention in Engineering Colleges" (Keown), 358-359.
"Report of Committee on Chapter Organization and Activities" (Heinrich), 359-360.
"Report of the Membership Committee" (James), 353.
Report of Nominating Committee, 360.
"Report of the Section Chairman" (Banash), 251-353.

Discussion, 89-94.
"Getting public support for law enforcement," (Davis), 116-120.
"How Detroit cut accidents through law enforcement," (Brown), 110-115.
"Model municipal traffic ordinance," (Godward), 82-85.
"New procedure in traffic law enforcement," (Lefferts), 121-126.
"Practical pointers on legislative promotion," (Cole), 95-98.
"Traffic law enforcement," (McAdoo), 107-109.
Uniform Traffic Regulations. (See Traffic Laws).
Usher, E.: Discussion on causes of accidents, 59.
Vocational Education: Discussion on safeguarding vocational school equipment, 228-231.
"Safeguarding vocational school equipment," (McDowell), 224-231.
"Teaching safety in vocational schools," (Kent), 221-224.
"Technique of safety education in the vocational school," (Furney), 220-221.
Whalen, G. A.: Address, 252-255.
Whitney, A. W.: "What can safety education contribute?" 232-238.
Williams, S. J.: "Open meeting of committee on Personality and Public Accidents," 173.
Women's Activities: "Practical program of community safety work for women's organizations," (Mahoney), 277-283.
"Women and home accidents," (Losh), 273-277.
"Women drivers and automobile accidents," (Miller), 268-273.
"Women's responsibility for safety," (Little), 265-268.
Women's Session: Minutes, 265-283.

1929

INDEX

VOLUME I

A B C—General Round Table Session, 33-51.
"Industrial Relations in Accident Control" (Bergquist), 39-42.
"Safety Factors in Modern Production" (O'Connor), 33-37.
"Statistical Talk for Junior Safety Men" (Blank), 44-49.
"Voluntary Use of Safety Codes in Industry" (DeBlois), 37-39.

Absenteeism: Discussion on getting the injured back to work, 466-475.
In "Relationship of the Personnel Manager and the Nursing Service" (Towsen), 257.

Absorption of poisons: "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 557-568.

Accidents—screw conveyor, "Eliminating the Screw Conveyor Accident" (Humphryes), 481-485.

Accident causes: In "Letting the Workmen Educate the Safety Man" (Williams), 403-404.

Accident control: "Industrial Relations in Accident Control" (Bergquist), 39-42.

Accident cost: "Hidden Cost of Injuries from the Executive's View Point" (Davis), 537-541.

Accident Prevention Equipment Manufacturers Section: Chairmen of Committees, 276.
"First Annual Report" (Davis), 266-270.
Minutes, 265-284.
Section Officers, 265.
Report of the Nominating Committee, 270.
Resolution on Committees, 267.
Retiring Officers, 265.

Accident prevention equipment manufacturers: "Confidence Necessary in Business Ethics" (Webster), 271-275.
List of Exhibitors, 280-284.
"National Safety Codes" (Agnew), 276-278.

Accident-prone man: Discussion in Electric Railway Section, 802-806.
"Why Do Some Trainmen Have Accidents and Others None?" (Slocombe), 199-802.
"Safety and the Individual" (Bingham), 89-93.

Accident reports: Discussion, 411.
In "What Activities Are Most Useful in Reducing Accidents in a Group of Plants?" (Rutland), 65.

Accident statistics: "Report of Engineering and Statistics Committee Electric Railway Section" (Malz), 704-732.
In "Safety from the State Standpoint" (Meade), 681-683.
In "Study of the Reported Fatal Accidents in the Cement Industry During 1928" (Weitknecht), 517-528.
In "What Activities Are Most Useful in Reducing Accidents in a Group of Plants" (Rutland), 65.
See also Statistics.

Acid hazard in chemical industry: See Chemical Industry.

"Address of the President" (Pettibone), 31-32.

Aeronautics: "Aircraft Factory Hazards" (Roloson), 329-333.
Discussion on examination of pilots, 303-311.
Discussion on licensing airports, 303-311, 342-346.
"Fire Prevention in Airports" (Davidson), 320-327.
"Flight Training as a Means of Insuring Safety" (Howard), 299-302.
"Maintenance of an Air Transport Service and Safety Standards" (Seymour), 336-342.
"Safe Flying Through the Use of Instruments" (Brown), 311-317.
"Safety Factors in Aerodynamics of Design" (Walter), 290-297.

Aeronautical Section: Membership Service and Activities of the National Safety Council" (Baker), 286-288.
Minutes, 285-347.
New Section Officers, 285.
Retiring Officers. 285.

Agnew, Dr. P. G.: "National Safety Codes," 276-278.

Ainsworth, C.: "Safe Practices in Manufacturing Nitro and Amido Compounds," 621-624.

Airports: See Aeronautics.

Ammonia: As refrigerant. Discussion, 585.
In "Protective Equipment for Men in the Chemical Industry" (Armstrong), 592.

Annealing chains: Discussion (ASSE), 376-381.
In "Progress Report of the A. S. S. E. Section on Annealing of Chains" (Thalner), 361-372.

Annual Banquet, 29-31.

Annual Meeting of Members: "Address of Welcome to the Congress" (Rice), 10-11.
Minutes, 9-27.
"Moral Significance of Safety" (Soares), 22-27.
"President's Annual Address" (Reninger), 12-18.
"Report of the Nominating Committee, 18-19.

Antiseptics: "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 563-568.

Armstrong, A. L.: "Protective Equipment for Men in the Chemical Industry," 592.

Ashe, S. W.: "Report of the Nominating Committee," 824.

Asphyxiation: Discussion, 601-602.
See also Gases, Gassing, Refrigeration Section.

A. S. S. E.—Engineering Section: "Discussion of Progress Report" (Daniels), 373-376.
Minutes, 349-396.
New Section Officers, 349-350.
"Progress Report of Committee on Annealing on Chains" (Thalner), 361-372.
"Progress Report on Noise and Its Relations to Accidents" (Snook), 382-386.
"Report of Committee on Accident Prevention in Engineering Colleges" (Keown), 358-359.
"Report of Committee on Chapter Organization and Activities" (Heinrich), 359-360.
"Report of the Membership Committee" (James), 353.
Report of Nominating Committee, 360.
"Report of the Section Chairman" (Banash), 251-353.

"Report of Steering Committee on Regional Safety Conferences" (Meisner), 353-354.
"Report of the Steering Committee on Research, Standards, and Codes" (Sanford), 354-358.
Automotive industry: Discussion on getting the injured back to work, 466-475.
Discussion on goggles, 429-432.
"Electrical Flashes and Arc Hazards in Industry" (Bausman), 457-460.
"Hazards of Inter-Departmental Trucking" (Thalner), 433-444.
"Letting the Worker Educate the Safety Man" (Williams), 398-405.
"Training Men for the Battle" (Burgess), 451-456.
"Where Do We Start Our Education?" (Sullivan), 411-415.
Automotive Section: "Membership Service and Activities of the National Safety Council" (Bushnell), 449-450.
Minutes, 397-475.
New Officers, 397.
"Preventing Industrial Eye Injuries" (Guilbert), 422-427.
Report of the Nominating Committee, 432.
Retiring Officers, 397.
Awarding of trophies: Public Utilities and Electric Railway Sections, 817-820.

B

Baker, J. S.: "Membership Service and Activities of the National Safety Council," 286-288.
Banash, J. I.: "Report of Section Chairman" (A. S. S. E.), 351-353.
Banquet, 29-32.
"Address of the President" (Pettibone), 31-32.
Bausman, K. H.: "Electrical Flashes and Arc Hazards in Industry," 457-460.
Bergquist, C. W.: "Industrial Relations in Accident Control," 39-42.
Beyer, D. S., and R. Clair: "Materials Handling Hazards in the Food Industry," 947-955.
Bichloride of mercury: As antiseptic. In "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 564.
Bingham, W. V.: "Safety and the Individual," 89-93.
Blank, F.: "A Statistical Talk for Junior Safety Men," 44-49.
Bonus plan in safety work: "How We Promote Safety" (Brown), 772-774.
Booth, W.: "Fire Prevention Activities of the National Board of Underwriters," 114-120.
Brabston, T. G.: "Report of the Program Committee," 702-703.
Brakes: Discussion in Food and Taxicab Section, 989-991.
Brandt, J. G.: "Discussion of Mr. Hungerford's Paper," 899-901.
Britton, Dr. J. A.: "What We Humans Can Do to Save Our Health." 825-826.
Brown, R.: "Report of the Poster and Slide Committee," 696-700.
Brown, W. A.: "How We Promote Safety," 772-774.
Brown, W. G.: "Safe Flying Through the Use of Instruments," 311-317.
Brundage, D. K.: "Problem of Sick Benefits," 209-217.
"Report of the Service Committee," 822-823.
Building: See Construction Section, Construction Industry.
Bulletin boards: Discussion, 62.
Burgess, G.: "Training Men for the Battle," 451-456.
Burns: In "Putting the Specialist's Ideas to Work in Our Plants" (Whiting), 570.
Bus operation: "Accident Prevention from the Viewpoint of a City Bus Operator" (Taggart), 750-752.
Bushnell, P. N.: "Membership Service and Activities of the National Safety Council," 449-450; 506-507; 684-685; 856-858; 934-935.

C

Calvin, R.: "Discussion of Mr. Nolan's Paper," 921-925.
Capps, G. C.: "New Venture in an E. B. A.," 834-838.
Carbolic acid (phenol): As antiseptic. In "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 563.
Carbon monoxide: Effect of radiation on poisoned animals. Discussion, 576.
Cement industry: "Discussion of Dr. Rock's Paper" (Ogden), 496-497.
"Eliminating the Screw Conveyor Accident" (Humphryes), 481-485.
"First Aid Training" (Forbes and Currie), 509-512.
"Plant Surgeon's Part in Accident Prevention" (Rock), 491-496.
"Study of the Reported Fatal Accidents in the Cement Industry During 1928" (Weitknecht), 517-528.
Cement Section: "Annual Report to the Section" (Town), 478-480.
"Membership Service Activities of the National Safety Council" (Bushnell), 506-507.
Minutes, 477-529.
New Officers, 477.
"Report of Committee on Posters," 480.
Report of the Nominating Committee, 491.
Retiring Officers, 477.
Cement and Quarry Sections: Minutes, 537-548.
Cement and quarry industry: "Hidden Cost of Injuries from the Executive's Viewpoint" (Davis), 537-541.
"Putting Punch Into the Safety Campaign" (Dempster), 543-548.
"Safe Practices in the Quarry" (Quigley), 531-534.
Central safety committees: "Organization and Activities of a Central Safety Committee" (Herron), 53-57.
Character and safety: "Mental Mechanics—In Relation to Accident Prevention and to Safety" (Hulbert), 81-82.
Charts—safety: In "Plant Safety Organization" (Miller), 606.
Chemical industry: "Absorption of Poisons Through Usual and Unusual Channels" (Macht), 557-568.
"Chemistry as an Aid in Accident Prevention" (Marsh), 617-620.
"Discussion on Mr. Miller's Paper" (Riederer), 610-611.
Discussion on protective equipment, 594-598.
"Fire, Explosion and Health Hazards of Refrigerants" (Connolly), 581-583.
"Growth of the Chemical Industry" (Howe), 550-555.
"Plant Safety Organization" (Miller), 605-610.
"Protective Equipment for Men in the Chemical Industry" (Armstrong), 591.

"Putting the Specialist's Ideas to Work in Our Plants" (Whiting), 568-573.
"Safe Practices in Manufacturing Nitro and Amido Compounds" (Ainsworth), 621-624.
Chemical Section: "Membership Service and Activities of the National Safety Council" (Ferguson), 615-616.
Minutes, 549-627.
New Officers, 549.
Report of the Engineering Committee, 556.
Report of the Nominating Committee, 590.
Retiring Officers, 549-550.
Chevalier, Col. W. T.: "Voluntary Critic's Conclusions Concerning the Construction Safety Program," 686-691.
Child labor: Discussion in Food Section, 971-974.
"Safety as a Basis for Regulation of Child Labor" (Wilcox), 963-971.
Clair, R., and D. S. Beyer: "Materials Handling Hazards in the Food Industry," 947-955.
Classification of accidents: In "How Our Car Men Prevent Accidents" (Pasche), 774-775.
Close, G. F.: "Report of the Executive Committee," 926.
Codes: ASSE, 355.
"National Safety Codes" (Agnew), 276-278.
Need in construction industry: In "Safety in Construction from the Building Official's Standpoint" (Knight), 632-634.
Connolly, J. I.: "Fire, Explosion and Health Hazards of Refrigerants," 581-583.
Construction industry: "Accident Prevention in Construction" (Stone), 668-670.
Accident Statistics, In "Safety from the State Standpoint" (Meade), 679-684.
"Address" (Marshall), 630-631.
"Address" (Rosenthal), 634-638.
Discussion on code, 677-678.
"Mechanical Safeguards on Construction Equipment," 642-650.
"Need of Educational Campaigns for Preventing Accidents" (Knutson), 661-663.
"Results through Voluntary Cooperation in Accident Prevention in Construction" (Wheeler), 650.
"Safety from the State Standpoint" (Meade), 679-684.
"Safety in Construction from the Building Official's Standpoint" (Knight), 632-634.
"Voluntary Critic's Conclusions Concerning the Construction Safety Program" (Chevalier), 686-691.
"What Can Be Done By Individual Contractors for Accident Prevention?" (Cowper), 672-676.
Construction Section: "Membership Service and Activities of the National Safety Council" (Bushnell), 684-685.
Minutes, 629-691.
New Section Officers, 629.
"Report of the Poster Committee" (McKinley), 639-640.
Resolution, 678.
Retiring Officers, 629-630.
Cooper, Will: "Report of Statistics Committee," 943-944.
Cooperation in accident prevention: "Results through Cooperation in Construction" (Wheeler), 650-656.
Cost of accidents: See Accident Cost.
Cowper, J. W.: "What Can Be Done by Individual Contractors for Accident Prevention?" 672-676.
Currie, R. D., and J. J. Forbes: "First Aid Training," 509-512.

D

Daniels, J. M.: Discussion of Progressive Report," 373-376.
Davidson, Maj. H. C.: "Fire Prevention in Airports," 320-327.
Davis, F. R.: "First Annual Report to the A. P. E. Manufacturers Section," 266-270.
Davis, J. R.: "Hidden Cost of Injuries from the Executive's Viewpoint," 537-541.
DeBlois, L. A.: "Relationship of the Plant Safety Engineer to the Nursing Service" (DeBlois), 251-254.
