

MINUTES
of the
TECHNICAL & RESEARCH COMMITTEE MEETING
NATIONAL INSULATION MANUFACTURERS ASSOCIATION
Washington, D. C. March 6, 1961

Glass Section

The meeting was called to order at 7:00 P. M. with the following in attendance:

C. E. Ernst, Chairman	Johns-Manville Sales Corp.
W. Gubar	Gustin-Bacon Mfg. Company
M. W. Keyes	Pittsburgh Plate Glass Company
R. L. Schneider	Owens-Corning Fiberglas Corp.
P. L. Losse	The Eagle-Picher Company
K. M. Ritchie	Baldwin-Ehret-Hill Inc.
R. C. Parlett	NIMA
J. M. Barnhart	NIMA

PRODUCT IDENTIFICATION

It was agreed that the following markings would be used to identify the flexible blanket products:

3 marks - $1/2$ pcf to, but not including $3/4$ pcf material, nominal density.

2 marks - $3/4$ pcf to, but not including 1 pcf material, nominal density.

1 mark - 1 pcf to, but not including $1-1/4$ pcf material, nominal density.

The marks will be made along the length of the blanket.

Mr. R. L. Schneider will investigate the method and type of marking to be used and his proposal will be circulated to the Committee for comments prior to the next meeting.

PERFORMANCE STANDARDS FOR FACINGS FOR BLANKET INSULATION

Mr. Barnhart was asked to prepare a list of properties for facings and circulate it to the Committee for their comments.

O. D. 'S OF GLASS FIBER MOLDED-TYPE PIPE INSULATION

Mr. W. Gubar agreed to prepare a table showing the O. D. 's of glass fiber molded-type pipe insulation (I. P. S.) and circulate it to the Committee for their comments.

REVISIONS TO MILITARY SPECIFICATIONS

It was agreed that Military Specifications MIL-I-22344, MIL-I-22023 and MIL-I 742A should be revised to include three products of different fiber diameter, i. e., 0.00018", 0.00028" and 0.0038". The various "k" values and densities have to be obtained to correspond to these diameters.

ADJOURNMENT

There being no further business, the meeting was adjourned.

Respectfully submitted

J. M. Barnhart
