

ETHYL CORPORATION

INTER-OFFICE CORRESPONDENCE

TO	Dr. Robert A. Kehoe	ADDRESS	Cincinnati
FROM	Earl Bartholomew	ADDRESS	Detroit
SUBJECT	Use of Liter Cans of Ethyl Fluid	DATE	June 13, 1944
		File No.	480 215.3005

I note from your letter of June 10 that in the near future a representative of the safety department will make a trip to Detroit for a discussion of the method now employed in the handling of concentrated Ethyl Fluid, particularly with respect to the use of one liter cans.

We are pleased to note that Dr. Sanders will be present at the time of the meeting and that any changes in the present procedure which may be recommended as a result of the meeting will be submitted to Dr. Sanders for his approval.

We shall be pleased to make any changes in the present methods which will reduce the hazards at Deepwater, provided of course that the recommended procedure is adaptable to our operations and does not significantly increase the hazards at Detroit.

Earl Bartholomew
