INTER-OFFICE COMMUNICATION

Legal Section (Judy Spencer) DATE: 9-15-82

Glenn Davis, Industrial Hygiene, Dayton District

ject: OD# 19258-22 - Lee Lawson

I have been unsuccessful in developing an industrial hygiene estigation of the aforementioned Occupational Disease Claim. re have been several reasons. Namely:

The Harrison Radiator Div-GM have no records of the claimant. as referred to the Moraine Engine Plant-GM, which is the plant gidaire-GM was located in until sold to White Consolidated.

TORY: January 1, 1975, General Motors split Frigidaire into 2 isions 1) Frigidaire (appliances) 2) Delco Air Conditioning . (Auto air-conditioners). In 1977 the Frigidaire Div. was d to White Consolidated. The Plant (over a 3 year renovation) ame part of the Chevrolet Truck and Engine Div-GM. On July 1, 1, Delco Air was absorbed by the Harrison Radiator Div-GM, ch is headquartered in Lockport, N.Y. Subsequently, Chevrolet ick & Engine was absorbed into GM Worldwide Truck. The Delco Harrison Radiator) Plant is still in existence in Dayton, but time did the claimant work here. The Frigidaire Plant is reconfigured to manufacture light trucks, hence, there is no to reconstruct the claimant's exposure.

I have pursued records of the claimant's work history, and ssible chemical exposures at the Moraine Engine Plant. This too been to no avail. I am therefore concluding the O.D. vestigation per the advice of the Industrial Hygiene Manager, u Gergely.
