

**Organic Vapor Monitor No. 3510
Analysis Service Request
(Pre-paid for 3 compounds)**

Customer Name (Print)			Monitor Number
Date			
Company			
Address			
City - State - Zip			Telephone
Important — Please record all sampling information. Place sealed monitor and this form in return mailer.			
Sampling Date	Sampling Time	Temperature (°F)	Relative Humidity (%)

Please circle up to three (3) compounds from the list below.

OVN Analysis Service

- | | | |
|--------------------------|-------------------------------|--|
| Acetone (1) | Chloroform (6) | Mesitylene (6) |
| Acetonitrile (1) | 1-Chloro-1-Nitro propane (6) | Methyl Acrylate (3) |
| Allyl Alcohol (6) | Cumene (6) | Methyl Butyl Ketone (MBK) (6) |
| Amyl Acetate (4) | Cyclohexane (2) | Methyl Cellosolve (6) |
| i-Amyl Acetate (4) | Cyclohexanol (6) | Methyl Cellosolve Acetate (6) |
| n-Amyl Alcohol (4) | Cyclohexanone (6) | Methyl Chloroform (1) |
| s-Amyl Alcohol (4) | Cyclohexene (2) | Methyl Ethyl Ketone (MEK) (2) |
| Benzene (6) | Diacetone Alcohol (6) | Methyl isobutyl Ketone (MIBK) (6) |
| Benzyl Chloride (6) | o-Dichlorobenzene (6) | Methyl Methacrylate (4) |
| Bromoform (6) | p-Dichlorobenzene (6) | Methyl Propyl Ketone (3) |
| i-Butyl Acetate (4) | Diisobutyl Ketone (DiBK) (6) | Naphthalene (6) |
| n-Butyl Acetate (3) | p-Dioxane (6) | n-Octane (2) |
| s-Butyl Acetate (3) | Enflurane (6) | Perchloroethylene (6) |
| i-Butyl Acetate (3) | Epichlorohydrin (6) | Phenyl Ether (6) |
| i-Butyl Alcohol (3) | Ethyl Acetate (1) | n-Propyl Acetate (3) |
| n-Butyl Alcohol (4) | Ethyl Acrylate (6) | n-Propyl Alcohol (4) |
| s-Butyl Alcohol (3) | Ethyl Benzene (4) | Propylene Dichloride (PDC) (4) |
| i-Butyl Alcohol (3) | Ethylene Chlorohydrin (6) | Propylene Glycol Mono Methyl Ether (6) |
| Butyl Cellosolve (6) | Ethylene Dichloride (EDC) (6) | Propylene Glycol Mono Methyl Ether Acetate (6) |
| Butyl Glycidyl Ether (6) | Forane (6) | Stoddard Solvent (6) |
| p-tert-Butyl Toluene (6) | Furfural (6) | Styrene (6) |
| Camphor (6) | Halothane (4) | 1,1,2,2-Tetrachloroethane (6) |
| Carbon Tetrachloride (6) | n-Heptane (2) | Toluene (6) |
| Cellosolve (3) | Hexane (1.5) | 1,1,1-Trichloroethane (6) |
| Cellosolve Acetate (4) | Isopropyl Acetate (2) | 1,1,2-Trichloroethane (6) |
| Chlorobenzene (6) | Isopropyl Alcohol (2) | Trichloroethylene (6) |
| o-Chlorostyrene (6) | Isophorone (6) | Vinyl Toluene (4) |
| o-Chlorotoluene (6) | Mesityl Oxide (6) | Xylene (4) |

The number following each compound, in parenthesis, is the recommended sampling time (hours) at one (1) TLV air concentration. This sampling time is based on the capacity of the Monitor and is the same as that listed in the "3M Organic Vapor Monitor Compound Guide."

* Because of their high vapor pressures (low boiling points), the starred (*) compounds are best sampled initially with the 3M 83520 Monitor (with Backup Section). Subsequent sampling may be done with the 3M 3500/3510 Monitor if determined, by 83520 results, that contaminant concentrations are within the 3500/3510 capacity limits.
