Bell Laboratories

subject Survey: Research for Industry
Associates

date January 27, 1981

from R. C. Power

PLAINTIFF'S EXHIBIT

ATT-67

W. J. Schreiber:

Attached is a questionnaire received from a group called Research for Industry Associates. As you can observe, the material was sent to my personal attention, yet I have no knowledge of the group nor have I had prior contact with them.

Inasmuch as the questions pertain to Bell Labs use of asbestos and the regulation thereof, I thought the Environmental Health and Safety Center might be able to respond to the survey. Accordingly, I have spoken with George Wilkening today who agreed that you could review and respond to the survey as appropriate.
