# ST. JOSEPH LEAD COMPANY

Incorporated March 25, 1864, under the Laws of the State of New York

## BOARD OF TRUSTEES

CLINTON H. CRANE  
Chairman

DANIEL K. CATLIN,  
St. Louis, Missouri

FIRMIN V. DESLOGE,  
St. Louis, Missouri

C. MERRILL CHAPIN, JR.  
Vice-President

ANDREW FLETCHER,  
Vice-President and Treasurer

HENDON CHUBB,  
of Chubb & Son

JAMES H. GROVER,  
Pres., St. Louis Union Trust Co

IRWIN H. CORNELL,  
Vice-President

FRED W. SHIBLEY,  
Vice-Pres., Bankers Trust Co.

M. F. WATTS,  
of Watts & Gentry, St. Louis

## EXECUTIVE OFFICERS

CLINTON H. CRANE,  
President

E. V. PETERS,  
Vice-President

IRWIN H. CORNELL,  
Vice-Pres., and Sales Manager

H. B. MCGOWN,  
Secretary

ANDREW FLETCHER,  
Vice-Pres., and Treasurer

ROBERT BENNETT,  
Assistant Secretary

C. MERRILL CHAPIN, JR.,  
Vice-President

GEORGE I. BRIGDEN,  
Assistant Secretary

STOCK TRANSFER OFFICE  
250 Park Avenue,  
New York

REGISTRAR  
City Bank Farmers Trust Company,  
New York

# ST. JOSEPH LEAD COMPANY

250 Park Avenue, New York City

## PRESIDENT'S ANNUAL REPORT TO STOCKHOLDERS

The Consolidated Balance Sheets as of December 31, 1935 and December 31, 1934 of St. Joseph Lead Company and Subsidiaries and the related Summaries of Consolidated Net Income and Surplus for the years ended on the above dates are submitted herewith as a part of this report.

The Consolidated Income of \$933,768.45 for the year ended December 31, 1935 before depletion, abandoned leases, obsolescence of the Doe Run Mill and income taxes, shows an increase of \$118,820.16 over the previous year. Although slightly higher prices were obtained from the sales of lead and zinc, the resultant profit was largely offset by a decrease in the profit from our Atlanta Gold property.

A net profit of \$486,199.77 after all deductions is shown for 1935 compared with a net loss of \$812,534.33 for the previous year. The large difference between the two periods is primarily due to the change in the method of computing depletion explained in the semi-annual report to stockholders covering the first six months of 1935 and has resulted in a charge against current earnings of \$303,009.11 instead of \$1,395,041.35 which would have resulted from use of the former basis. No change was made or is contemplated in connection with the depreciation rates now being used on the Company's books. The Consolidated Earnings for the eight years ended December 31, 1935 are shown below:

### Consolidated Earnings

| Year      | Income after<br>Interest but<br>Before Other<br>Deductions | Provision for  |              | Net Income<br>before<br>Depletion, Etc. | Provision**<br>for<br>Depletion, Etc. |

| 1931..... | 1,622,220.01                                               | 1,149,702.39   | .....        | 472,517.62                              | 1,886,589.04                          |
| 1930..... | 5,809,486.42                                               | 1,319,064.38   | 390,314.61   | 4,100,107.43                            | 2,566,469.67                          |
| 1929..... | 11,954,769.82                                              | 1,268,935.08   | 883,938.98   | 9,801,895.76                            | 2,264,740.04                          |
| 1928..... | 7,815,038.98                                               | 1,050,348.88   | 455,623.88   | 6,309,066.22                            | 1,775,803.27                          |

\*Loss.

\*\*Includes abandoned leases for the years 1933 to 1935 inclusive and provision for obsolescence of the Doe Run Mill for the year 1935.

Quarterly dividend distributions of \$0.10 per share aggregating \$782,269.30 were made to stockholders during the current year. These dividend distributions were paid out of Surplus earnings of the Company, accumulated after February 28, 1913 and are therefore subject to Federal Income surtax. The following is a record of dividends for the years 1928 to 1935 inclusive:

### Dividends Paid to Stockholders

| Year      | St. Joseph<br>Lead Company | Minority<br>Interests in<br>Subsidiaries | Year      | St. Joseph<br>Lead Company | Minority<br>Interest in<br>Subsidiaries |
|-----------|----------------------------|------------------------------------------|-----------|----------------------------|-----------------------------------------|
| 1935..... | \$782,269.30               | .....                                    | 1931..... | \$2,438,079.75             | \$ 14,618.75                            |
| 1934..... | 586,701.30                 | .....                                    | 1930..... | 5,851,386.00               | 128,865.00                              |
| 1933..... | .....                      | .....                                    | 1929..... | 5,851,374.75               | 70,305.00                               |
| 1932..... | 292,569.75                 | .....                                    | 1928..... | 5,851,335.00               | 76,253.00                               |

On December 6, 1935, a further reduction was made in the Company's outstanding indebtedness when the \$500,000 one-year 11½% note dated June 17, 1935 was paid. This note represented one of the bank loans made at the time of refinancing the \$8,000,000 St. Joseph Lead Company Ten-Year Convertible 5½% Debenture Bonds due May 1, 1941, which were called for redemption and payment on June 18, 1935, at 105 and accrued interest. The Company's long-term indebtedness has therefore been reduced from \$8,000,000 to \$5,500,000 during 1935.

The Consolidated Balance Sheet of St. Joseph Lead Company and Subsidiaries, as of December 31, 1935, shows a ratio of current assets to current liabilities of 12.16 to 1. At the close of the year the Company owned \$528,000 par value of United States Government, State and Municipal securities of which \$442,000 were United States Government securities, \$31,000 in New York State bonds and \$55,000 New York City bonds. The New York State and New York City bonds, together with \$12,000 of United States Government securities, are on deposit with the New York and Missouri State Industrial Compensation Commissions. In addition, \$10,000 United States Government securities are on deposit with the United States Department of the Interior as security for performance of a mining lease on Indian Land.

The stockholders are again reminded that the net value of the Capital Assets set forth on the accompanying Consolidated Balance Sheets are depleted and depreciated figures based on appraised values at March 1, 1913 as to properties owned at that date and on cost as to subsequent additions; and they do not necessarily indicate the present day values or prospective future values of the Company's property, plant and equipment, as such values could be arrived at only by current estimates which would vary from time to time depending on the price of metals, rate of production, cost of labor and other factors. Although the appraised value of the areas owned on March 1, 1913 have been entirely written-off the Company's books by depletion deductions, ore is still being mined from these areas at a profit and probably will be for years to come. Of the \$4,315,000 appreciation arising from revaluation of ore reserves after March 1, 1913 only \$384,963.21 of the said book value remained undepleted on December 31, 1935.

### Lead Operations

The Company's Southeast Missouri properties were operated throughout the year on a curtailed basis. On June 1, 1935 the schedule of twelve working days in each four week period, which had been in effect since November 1, 1934, was reduced to a ten day basis, and this rate was maintained through the remainder of the year. The Missouri smelter at Herculeum was operated continuously during the year on a one furnace basis although on October 13, 1935 a six instead of a seven day week was adopted. In spite of the fact that these properties were operated on a curtailed basis, lead stocks increased 5,845 tons during 1935 bringing the total of Missouri lead on hand at December 31, 1935 to 108,829 tons.

The Rivermines Mill of the Doe Run Lead Company was temporarily closed down in August 1934. During the year 1935 it was decided that this shut-down should be continued permanently, and all usable equipment is being transferred to the Federal Mill of the St. Joseph Lead Company, as it was found that the Doe Run Lead Company production could be more effectively handled by that unit. A provision for obsolescence of \$100,000 a year, beginning with 1935, will be charged against current earnings until the property has been written off. This provision is in addition to the regular provision for depreciation.

Arrangements are being made to liquidate the Doe Run Lead Company, a wholly owned subsidiary of St. Joseph Lead Company, during the early part of 1936.

During the year ten additional suits were filed against the Company for occupational diseases claimed to have been caused by breathing dust in our Southeast Missouri mines. At the close of 1935, 123 suits amounting to \$1,957,500 had been filed and were pending as compared with 113 suits, totaling \$1,915,000 on December 31, 1934. No suits had been tried during the current year. The Company denies all liability in connection with these cases, for reasons set forth in the Annual Report for the year 1934.

### Zinc Operations

The Balmat and Edwards properties located in northern New York were operated continuously throughout the year on slightly less than a full time schedule.

The Joseptown Zinc Smelter in Pennsylvania continued to treat a substantial portion of the output of the Edwards and Balmat mines to meet the demand for "St. Joe" zinc oxide from the rubber and paint industries.

## Miscellaneous Operations

The mill on the Company's short lived gold property at Atlanta, Idaho, operated at full time throughout the year on ore from the mine and on old tailings.

The Block "P" mine in Montana remained closed throughout the year.

The Robinson mine of the Kansas Explorations, Inc., located in the Tri-State District was sold to the American Zinc Lead & Smelting Company on August 12, 1935 and has been placed in production by that company. Although the Kansas Explorations, Inc., did not operate any of its mines during the year, a small income was derived from royalties received from milling the Dardenne tailings pile by sub-lessees.

Construction work on the Aguilar Corporation property, located in the Province of Jujuy, Argentina, is completed and the mill was placed in operation on February 5, 1936. Due to improved conditions in the world metal markets it has been decided to increase the capacity of the mill from 200 to 400 tons of ore per day, but milling on the 400 ton basis will not commence until about July 1936.

Of the numerous mining properties offered to the Company during 1935 only four were considered worthy of examination and these were turned down after inspection was made.

## General

Under date of May 31, 1935 the New York Stock Exchange certified its approval for listing and registration of the Company's Capital Stock under the Securities Exchange Act of 1934. Registration of our stock was therefore effective as of July 1, 1935 at the termination of temporary registration.

There were no general wage or salary increases at any division or in the New York Office during 1935.

The Comparative share holdings for December 31 of each year for the last five years are as follows:

| Year      | Number | 19 or Less | 20-99 | 100-199 | 200-Over |
|-----------|--------|------------|-------|---------|----------|
| 1935..... | 5,304  | 1,491      | 1,748 | 911     | 1,154    |
| 1934..... | 5,300  | 1,549      | 1,712 | 873     | 1,166    |
| 1933..... | 5,145  | 1,511      | 1,684 | 835     | 1,115    |
| 1932..... | 5,360  | 1,584      | 1,796 | 875     | 1,105    |
| 1931..... | 5,063  | 1,784      | 1,349 | 831     | 1,099    |

CLINTON H. CRANE,  
President.

New York, February 21, 1936.

CERTIFIED PUBLIC ACCOUNTANTS

22 EAST 40TH STREET  
NEW YORK

## ACCOUNTANTS' CERTIFICATE

St. Joseph Lead Company:

We have made an examination of the consolidated balance sheets of St. Joseph Lead Company (incorporated in New York) and its subsidiary companies as of December 31, 1935 and 1934, and of the related summaries of consolidated net income and surplus for the years 1935 and 1934. In connection therewith, we made a review of the accounting methods and examined or tested accounting records of the companies and other supporting evidence in a manner and to the extent which we considered appropriate in view of the system of internal accounting control.

All subsidiary companies controlled by your company were examined by us with the exception of the Cia. Minera Aguilar, S. A., the South American subsidiary of Aguilar Corporation, which subsidiary has been audited by Messrs. Price, Waterhouse, Peat & Company to December 31, 1935.

Effective January 1, 1935, the tonnage remaining in the various properties was re-estimated by engineers of your company, and depletion for the year, based on the estimated units, was computed on sales instead of on production as theretofore.

Physical inventories are taken by employees of the companies at varying dates during the year, and in substantiation of inventory quantities as of December 31, 1935 and 1934, we have accepted certificates from officials of the companies. The cost of inventories of lead, zinc, etc., does not include either depletion or depreciation.

In our opinion, subject to the foregoing and to the realizable value of investments and advances, the accompanying consolidated balance sheets and related summaries of consolidated net income and surplus, with the footnotes thereon, fairly present, in accordance with accepted principles of accounting consistently followed by the companies, their financial condition at December 31, 1935 and 1934, and the results of their operations for the years ended those dates.
