Hi Emily!

I hope you had a nice weekend as well. Thank you very much for the invitation for Secretary Wright to participate in this Fireside chat during Climate Week. We don't have our exact itinerary laid out yet for our time in NY, but if you could complete the form attached with a few more details we can run this by our team as we finalize our trip.

Thanks so much and we look forward to hearing from you.

Izzy

Subject: [EXTERNAL] Speaking Invitation: ClearPath and API Event - September 22, 2025

Dear Secretary Wright,

I hope you had a nice weekend.

[ClearPath](#) is partnering with the American Petroleum Institute (API) on the *Carbon Innovation Forum* on Monday, September 22nd in New York City, during Climate Week. We have partnered with API for the past 3 years to showcase how the oil and gas industry is seizing the opportunity to secure American energy independence and lead emissions reductions at a global scale. [Previous Forums](#) have featured senior government officials, energy executives, project developers, technology startups, investors and thought leaders to talk about the energy *addition*, and the strong market demand for putting *more* energy on the grid.

I'm reaching out with an invitation for you to join us for our signature fireside chat from 1:15-1:30pm with ClearPath CEO Jeremy Harrell. A description of the fireside chat is below.

Innovative Technologies Helping Drive American Energy Dominance

As global energy demand rises and competition for technology leadership intensifies, DOE and its National Labs play a pivotal role in advancing innovative technologies that

strengthen American energy security and competitiveness. This fireside chat will explore how DOE is leveraging its research and development capacity to accelerate next-generation energy technology, with a particular focus on U.S. manufacturing, industrial reshoring, and maintaining U.S. leadership in clean, affordable and reliable energy technologies.

Following the fireside chat, the event will move on to panels with energy innovators, financial institutions, and API member company executives.

Please let me know if you have any questions – we are happy to provide any additional details you need or set up time to discuss the event further.

Thank you very much for your consideration. We hope Secretary Wright can join us.

Best,
Emily Johnson
