Dear [REDACTED]

Here are my slides for tomorrow along with a bio and picture.

I'm looking forward to discussing with you all tomorrow.

Yours,

[REDACTED]

[REDACTED] is Senior Scientific Officer at the European Chemicals Agency (ECHA) in Helsinki with over 20 years' experience on the risk assessment and risk management of chemicals. [REDACTED] is an ecotoxicologist and currently the restriction process coordinator at ECHA. He has worked on restriction proposals for numerous substances, including per and polyfluorinated substances (PFASs), 'intentionally added microplastics', cyclic siloxanes, decaBDE, lead in PVC and lead in ammunition. Prior to joining ECHA [REDACTED] worked as a chemical risk assessment consultant and for the Environment Agency of England and Wales.

Subject: EPEE/APPLiA invitation to be a panelist in upcoming webinar - 9th March

CAUTION: This email originated from outside ECHA. Do not click links or open attachments unless you know the content is safe.

Check the email address of the sender. It is possible that the name of the sender is known to you (e.g. a colleague), but the actual sender is someone else.

Dear [REDACTED]

We hope this email finds you well and thanks once again for your availability in joining our EPEE and APPLiA's joint virtual roundtable "*Regulating Refrigerants: A sustainable route towards Green Deal objectives*" that will be taking place on **Wednesday 9 March at 10 am CET**.

Please find attached the finalised agenda and some useful information:

- As keynote speaker you will be able to present for approximately 10-15 minutes. Thanks for helping the audience in understanding what is needed to be considered during the Annex XV REACH Dossier preparation under ECHA's perspective, and to kindly provide any suggestions to industry, how to best contribute to possible data gaps and upcoming consultations later in the process (once the REACH restriction proposal is published). Your presentation will be followed by a brief dedicated Q&A, depending on the remaining time.
- Please feel free to use slides (or not) depending on your preference. In case you would opt for the use of slides, we would kindly ask you to send it to us by Monday 7 March EOB, in order to have them included in the master deck we will be displaying during the webinar.
- We would also ask all speakers to please send us a short bio and photo to be included in the master presentation.

Please note that on the day of the event, at 9.30 am, we will have a technical check with the speakers to make sure all is set ahead of the start of the webinar. For your convenience, I also report the connection details to join the webinar at this [link](#).

Thank you in advance and we remain available should you have any questions.

Kind regards,

[REDACTED]

Subject: RE: EPEE/APPLiA invitation to be a panelist in upcoming webinar - 9th March

Dear [REDACTED]

Thanks a lot for the confirmation of your availability. I can also confirm from our end that event will take place on **9th March (10:00 to 11:00 CET)**.

Will now send a "save the date" on the calendar. A specific link that allows access to the speakers' room will follow shortly.

Would you like to have any PowerPoint presentation for the webinar? More than happy to accommodate that and help you through any upcoming practicalities.

Have a nice evening, best,

Dear [REDACTED]

Thank you for your patience. I would be pleased to take part in your event on the 9th of March from 10:00 to 11:00 CET. The 10th of March would also be fine at the same time.

Unfortunately I am no longer available on the 23rd of March, but one of my experienced colleagues would be available to make a presentation if you hold the event on this date.

I look forward to discussing with you further in due course.

Yours,

Dear [REDACTED]

I hope you are well. I am coming back to you on the upcoming webinar proposal, since we filed the formal request to ECHA and we were informed that a final decision will be made by 15 February 2022.

Since we are still keeping on hold the possible date of 9th March, or alternatively 23rd March, it would be great if (at least informally) you could please let us know whether you could still make yourself available on 9th March.

Have a lovely day, best,
[REDACTED]

Subject: RE: EPEE/APPLIA invitation to be a panelist in upcoming webinar - 9th March

Dear [REDACTED]

Thanks for confirming that you will make the request through the website.

I'm afraid that the 10th of March is also a clash with the SEAC plenary, which runs over the whole of the week. The following week is even worse as both RAC and SEAC are meeting. The following week (from the 21st) is better from our side.

Dear [REDACTED]

Thanks a lot for your clarification and availability. We will indeed fill in the official template to submit a request to ECHA and in the meantime, already mentioning that as a second option we are also considering the 10th March as a possibility for the webinar. So, in case just let me know if that or another option would work better for you, just in case.

Looking forward to hearing from you and wishing you a lovely evening.

Best,
[REDACTED]

Subject: RE: EPEE/APPLiA invitation to be a panelist in upcoming webinar - 9th March

Dear [REDACTED]

Thank you for inviting me to speak at your event. I will consider this request with my management, but I'm afraid that that all speaking requests need to be made via our contact form on the website. The link is below. By using the form this will ensure that you get a decision as soon as possible.

I should also note that ECHA's scientific committee for socio-economic analysis will be having its plenary meeting on the 9th of March, which could require my participation, depending the final agenda. Would you consider an alternate speaker from the Risk Management I unit in ECHA?

Dear [REDACTED]

I would like to kindly follow up on the below, concerning the upcoming webinar in early March. I would like to possibly understand whether you are considering this as an option and discussing it internally.

Below you can find some additional information and details, which will of course be finalized as soon as we can received all confirmations from the panelists. The idea is to allow speakers to give a brief presentation on status of play depending on their respective role, so to also allow some time for questions. The entire webinar will last no more than 1-hour.

It will be a closed meeting, meaning that we will invite our respective members of the associations, plus the European Commission and national authorities. So it will be very informative and very helpful to shed some light in the complex regulatory process(es) for the sector.

The idea of having you as our Keynote Speaker would really provide an added value to the discussion.

I thank you in advance for your availability and interest.

Agenda

10:00 - 10:05 Welcome & Introductory

[REDACTED]
EPEE, Senior Policy Director

10:05 - 10:20 Keynote Speaker, Q&A

[REDACTED] TBC

Subject: EPEE/APPLiA invitation to be a panelist in upcoming webinar - 9th March

Dear [REDACTED]

I hope this email finds you well. I am writing to you on behalf of the European Partnership for Energy and the Environment, representing the voice of the heating, cooling and refrigeration industry in Europe (EPEE).

Together with APPLiA, the trade association representing the home appliance industry in Europe, we are planning to organise a webinar on REACH restrictions in early March (possibly on 9th March TBC). The overall aim of the webinar will be focused on what is needed to be considered during the Annex XV REACH Dossier preparation under ECHA's perspective and how industry can best contribute to possible data gaps and upcoming consultations. This will also be complemented by a high-level panel of EU and international experts (including an EC representative).

Considering your prominent role also as Restriction Process Coordinator in ECHA, it would be of great value to have you among our panelists and to take part in the webinar with a brief presentation. If you agree, we will of course provide additional details about the agenda and any practical information about it.

I am of course more than happy to provide any further detail on a brief call if it is easier.

Thank you in advance for your kind feedback and best regards,

[REDACTED]
