DATE August 27, 1970

SUBJECT PCB ANALYSIS OF JFQ SEWER WATER SAMPLES

REFERENCE

cc R. E. Keller - Res. 1
W. B. Papageorge - WPAPA
P. B. Hodges - PHODG
C. W. Roos - Res. 1

TO : L. W. Keith
JFQ

Sample Identification	OR Log Number	ppb PCB's
Main Sewer Effluent July Composite	395	43.5

The E.C. fingerprint of this sample was equivalent in every respect to that of Aroclor 1248.

A portion of this sample, after agitation and before extraction for PCB analysis, was submitted to the Spectroscopy Group for mercury analyses. They reported that it contained less than 0.004 ppm total mercury.
