

PELLE ISBERG

SCIENTIFIC ATTACHE TO THE SWEDISH EMBASSY IN WASHINGTON
REPRESENTATIVE OF THE ROYAL SWEDISH ACADEMY OF ENGINEERING SCIENCES

WASHINGTON July 31, 1961

Dr Robert A Kehoe, Director
The Kettering Laboratory of the
College of Medicine
University of Cincinnati

CINCINNATI Ohio

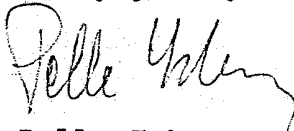

Dear Dr Kehoe:

We have in Sweden within the academy that I represent, a committee working on problems in connection with the contamination of ground water by leaking oil and gasoline.

I have been told that you are working on this problem, and I should appreciate it very much if you could send me all information you have on the subject. Things that are of particular interest are for example the toxicity of contaminated water, methods of estimating the gravity of the situation when a spill has occurred and, of course, methods for cleaning up the spills.

Names and addresses of other specialists in the field will also be very appreciated.

Truly yours,

Pelle Isberg
