College of Medicine
Eden Avenue
Cincinnati 19, Ohio

Dear Bob:

Herewith are copies of a February 22nd
clipping which came in yesterday, and of a note written
to Joe Costello about it.

Haven't the boys at the Taft Laboratory anything
more important to do than to carry on the "investigation"
which apparently terminated today?

Sincerely,

MB:es

U. S. Public Health Probe

Exhaust Fumes To Be Tested For Lead Poisoning Effects

The FHS engineering staff will take detailed air measurements in the Safety Lane and garage buildings.

Medical research on the project
Cat-

quantity of lead inhaled by a garage worker is not sufficient to cause lead poisoning, officials said.

Mr. J. A. Costello
Vice President
Ethyl Corporation
100 Park Avenue
New York 17, N.Y.

Dear Joe:

Confirming our telephone conversation this morning, enclosed is a copy of the February 22nd clipping which turned up only yesterday.

The story is not particularly objectionable, but the headline gives an unpleasant impression, and I frankly can't understand the Public Health Service attitude in view of the lack of any evidence of lead hazard from this source.

I am sending a copy also to Bob Kehoe, with the letter copied herewith.

Sincerely,

MB:es
