Dear Mr. McGrath:

Your letter of February 21, 1974 to Mr. Mai soliciting support for a vinyl chloride monomer (VCM) rat feeding has been referred to me. Shell Chemical Company does not manufacture polyvinyl chloride but is a leading supplier of VCM to the polyvinyl chloride industry.

Your proposal is currently under study but at present we are unable to reach a decision concerning support due to the short time we have had available to consider your proposal. We would appreciate an extension of the deadline for our decision until April 1, 1974.

Very truly yours,
SHELL CHEMICAL COMPANY
