Mr. R. E. Wyant
Atlantic Refining Company
Box 2819
Dallas 1, Texas

Dear Mr. Wyant:

It was a pleasure to talk with you about our DIASEAL M. We do not have any formal engineering brochures concerning this material prepared. We have sent the attached information to our engineers for their use. I believe it will answer your questions about what DIASEAL M is and how it is used.

DIASEAL M is available from all of the mud companies and, of course, must be priced by them. I suggest you get the price from your local mud distributor.

We will have more complete information available in the near future. As soon as this is printed, I will see that you get copies.

Under separate cover I am sending you a two pound sample of DIASEAL M.

Our Mr. Baker of Lafayette, Louisiana, requested that I send to your Mr. Kern a sample of DIASEAL M. I am sending him a two pound sample of DIASEAL M and a copy of the attached technical information.

Yours very truly,
