MEMORANDUM

TO: VDC Program Panel

FROM: Robert R. Romano *RRR*

DATE: March 25, 1987

SUBJECT: VDC 1986-1987 Budget and Commitment Forms

During a January 30, 1987 Conference Call, members of the VDC Panel agreed to develop a new '86-'87 Panel budget. The budget was established at \$50,000 and will be split between two member companies: Dow Chemical U.S.A. and PPG Industries.

Enclosed is a commitment form verifying this action. Please complete the form and return it to me as soon as possible.

Thank you for your cooperation and patience.

Inter-Office
Correspondence

To: R. K. Lee

Date: April 16, 1987

From: J. A. Barter

Location: 36 West

Subject: p-Dichlorobenzene MSDS

Nick Stufano of Standard Chlorine inquired about the most recent PPG MSDS on p-DCB, particularly the source of the data that changed our oral LD50 from 2500 mg/kg on the previous MSDS to 500 mg/kg on the new one. Both Monsanto and Standard Chlorine have 1800 mg/kg. Our sheet was changed on Tom Baldauff's suggestion based on a change in the RTECS value.

Stufano's concern is that some states' child resistant packaging laws use a LD50 of 1500 mg/kg as a trigger point and this could force para blocks and other products to undergo tremendous packaging changes.

We have ordered the literature reference for this study and will review it to determine whether we want to continue that value on our MSDS or use a more commonly accepted value.

A handwritten signature in dark ink, appearing to read 'JAB/mar'.
