Asbestos

This letter prompted by a telephone call on Tuesday morning, March 7, continued concern by Mrs. Peterson over the fact that she had taped approximately 8 seams followed by sanding which she estimated took about an hour a day for three days.

March 8, 1978

Mrs. Paula Peterson
1073 Ruth Place
North Bellmore, L.I. NY 11710

Dear Mrs. Peterson:

Supplementing previous correspondence, and in answer to your telephone questions, we have reviewed our old and discontinued formula of asbestos containing SX Joint Compound.

Calculation would indicate that asbestos content in that old formula was between four and five per cent.

Sincerely yours,

BONDEX INTERNATIONAL, INC.
