Re: PFOA ECA Process: Product Information (OPPT-2003-0012/AR-226)

Dear Ms. Weber and Ms. Dominiak:

In view of the potential threat to human health and the environment at issue in connection with the ongoing investigation of PFOA through USEPA's ECA process under TSCA, we submit the following documents obtained from DuPont^{1/} relating to the presence of PFOA/C-8 in various production processes and products:

1. 3/1/79 - DuPont Memo Re: Fate Of PFOA In Teflon® Process (EID714467-9);
2. 3/6/79 - DuPont Memo Re: PFOA in Teflon® Process At Spruance, Virginia (EID714465-6);
3. 4/1/81 - DuPont Memo Re: Experimental Program On PFOA At Spruance, Virginia Plant (EID714013-4);

^{1/} As a defendant in a pending lawsuit in state court in West Virginia, DuPont has the right to restrict distribution of documents that it views as "confidential" under the terms of a Stipulated protective Order. DuPont did not mark any of the enclosed copies "confidential" under that order.

19. 11/4/94 - DuPont E-Mail Re: Proposed Use Of C-8 In Shaving Gel (EID217052-3);
20. 12/2/96 - DuPont Memo Re: Proposed Test Methods For Migration Of C-8 From PTFE Coated Pans Into Food Simulants (EID093165);
21. 8/21/00 - DuPont E-Mails Re: Responses To Media On Presence Of C-8 In Products (EID158072-3);
22. 2/27/01 - DuPont Presentation Charts: PFOA Use And Exposure - Peer Review (EID673917-42); and
23. 5/30/01 - DuPont E-Mail Re: Results Of Exposure Of Rats To PTFE Fumes (EID531507-8).

Very truly yours,

Robert A. Bilott
