DOCUMENT DESCRIPTION: Letter to J. Banash from Dr. Winslow RE Surgeon
General Comment

Banash

December 23, 1932

Mr. J. I. Banash,
230 North Michigan Ave.,
Chicago, Ill.

Dear Mr. Banash:

I have just received the following comment from
Surgeon General Cumming of the United States Public Health Service:

"I am very glad to have your views regarding the publication of an article based on the report of the technical committee on sandblasting.

It seems to me that your position is a sound one. The intention of the Public Health Service at present is to publish the data obtained by the Service in connection with the investigation without drawing conclusions."

If the Public Health Service is planning to publish the actual findings of the sandblast study without drawing conclusions I wonder if this might not form an ideal basis for a publication by the Council.

Yours very sincerely,

C.-E.A. Winslow
