

Class I and II Well Inspection Form US Environmental Protection Agency – Region 4 Underground Injection Control Program 61 Forsyth Street SW, MC 9T25, Atlanta, Georgia, 30303 Phone: (404)562-9424					Inspection ID	EPA Well ID#: F L S 1 1 3 0 0 1 6																																																																														
						Year-Month-Day: 2 0 2 3 - 0 3 - 3 0																																																																														
						EPA Permit # (or RA): N O N E																																																																														
						Page 1 Of 2																																																																														
Inspector(s): <u>Carl E. Weller</u> (lead), <u>Carol Chen</u> Start Time: <u>12:50 pm</u>																																																																																				
End Time: <u>1:05 pm</u>																																																																																				
Facility Contact Information	Facility Name: <u>Maverick Natural Resources, LLC (Breitburn Operating LP)</u>																																																																																			
	Street Address: <u>5415 Oil Plant Rd</u>																																																																																			
	City: <u>Jay</u> County: <u>Santa Rosa</u> State: <u>FL</u> Zip: <u>32565</u>																																																																																			
	Nature of Business: <u>oil and gas production</u>																																																																																			
	Facility Owner/Operator: <u>Maverick Natural Resources, LLC</u> Phone: <u>850-675-1702</u>																																																																																			
	Email: _____																																																																																			
	Facility Contact (if different): <u>Al Jones, Plant Superintendent</u> Phone: <u>251-227-3319</u>																																																																																			
	O/O Mailing Address: <u>5415 Oil Plant Rd</u>																																																																																			
Well Data from File	City: <u>Jay</u> County: <u>Santa Rosa</u> State: <u>FL</u> Zip: <u>32565</u>																																																																																			
	Well Name & #: <u>C. H. Bray Et Ux #10-1A</u> API No. <u>0911320039</u> PA No. <u>311587</u>																																																																																			
	Well Type (see table): <u>Enhanced Oil Recovery (EOR)</u> State Permit: <u>OG_521</u>																																																																																			
	Latitude (°N): <u>30.96306703</u> Longitude (°W): <u>-87.15891826</u> Elevation (ft): <u>Otis WB @15265'</u>																																																																																			
	Injection Method (check applicable): ☐ Casing Injector; ☒ Tubing & Packer; ☐ Cemented Injection Tubing <u>Otis WB @15205'</u>																																																																																			
	PBTD: 15737' ☐ Other: <u>surface casing 10 3/4" @3716' Superior Permapak Packer @15140'</u>																																																																																			
	<u>Upper Globe Perm Packer @ 15097'</u>																																																																																			
	Total Depth (ft): <u>15753'</u> Inner Casing Size (in): _____ Tubing Size (in): _____ Packer Depth (ft): <u>15097'</u>																																																																																			
Field Measurements and Observations	Inj. Zone: ☐ Open Hole; ☒ Perforated; Top(ft) <u>15408'</u> Bottom(ft): <u>15680'</u> Max. Injection Pressure (psig): <u>4400 psi PW</u>																																																																																			
	Latitude (°N): <u>30.96312</u> Longitude (°W): <u>-87.15895</u> Elevation (ft): _____																																																																																			
	EPA GPS ID: <u>SX8123</u> Well Status (see table): <u>AC</u> If not Active, Reported Date Last Active: _____																																																																																			
	Nature of Injected Fluid(s) if any: <u>Produced fluids</u>																																																																																			
	General Condition of the Well Site: _____																																																																																			
	Added notes & comments: Maximum Injection pressures are Nitrogen (N2) 7500 psi, Produced Water (PW) 4400 psi																																																																																			
	Notes & Comments (include discrepancies from database values): <u>T-disk was installed on the nitrogen (N2) flowline, blocking</u>																																																																																			
	Perforations (Smackover Formation): <u>gas injection. The produced waters flowline to the injection</u>																																																																																			
	<u>15408' to 15428' 5/09/1974</u> <u>well was open for injection.</u>																																																																																			
	<u>15419' to 15448' 11/24/2014</u> Tubing gauge: <u>400 psi</u>																																																																																			
<u>15482' to 15542' 1/25/1973</u> Production gauge: <u>0 psi</u>																																																																																				
<u>15590' to 15610' 5/03/1972</u> Surface gauge: <u>0 psi</u>																																																																																				
<u>15620' to 15680' 11/24/2014</u> <u>Well passed mechanical integrity test on 5/12/2022.</u>																																																																																				
See reverse for additional observations, comments and photo log
