George Roush, Jr., M.D.
Director, Medical Department
Monsanto Company
800 N. Lindbergh Boulevard
St. Louis, Missouri 63166

Dear George,

In connection with your inquiry late last week, letters have been sent to personal physicians of 85 persons who were examined by us at Sauget, Illinois. Six are awaiting the completion of properly filled out medical information forms. For the remainder of the 115 examined, additional medical information release forms were sent to Mr. Heisler. I hope that these will be completed so that the medical information of the examination can be sent on all of those who were seen at the Krummrich plant.

If you have any questions about this, please do not hesitate to call me.

Very best wishes and kind regards.

Sincerely,

Raymond R. Suskind, M.D.
Director
