Isam,

I can field that last question. We had initially discussed doing an MOU, however we were hesitant to draft anything that would overshadow or confuse the final environmental work plan that the governments are working on. Instead, we are considering a joint communique that would highlight the discussions. I have reviewed and made edits to the draft and the plan is to send this to the embassy by COB today.

Best,

Hi Millan,

I am sorry but I was in meetings all day yesterday. I believe there are some new updates from what I understood from Rick this morning.

We are looking into the setting up the meeting between Mr Terrab and Administrator Pruitt. Mr Terrab will most likely be in Marrakech that entire week.

Also, there was a discussion on a potential MoU being signed, could you let me know if this is still on the agenda? If so we would need a draft or basic guidelines on what subjects it would cover to submit to Rabat.

Many thanks,

Isam
